

Secretary of War Explains Naval Test of Vulnerability of Canal

EXPLAINS SHAM RAID ON CANAL

War Secretary Tells Object of Navy Maneuvers

"Enemy" Seeks to Delay the Pacific Fleet One Week

Success Would Give Control of Atlantic to foe

(Continued from First Page)

maneuvers of this year are a test against the kind of raid that may be anticipated. The situation is based upon the assumption that strained relations exist between the United States and imaginary enemies, equal to us in resources, man power and naval strength. We further assume to have reduced the public demand for consolidation of our Pacific and Atlantic fleets for fear such an act would precipitate hostilities, but about the first of this month the appearance of an imaginary hostile naval detachment in the middle of the North Atlantic ocean caused our government to order its Pacific fleet to sail for the Atlantic. The imaginary hostile powers are supposed to have shortly thereafter moved their main combined navies into the Atlantic and ordered a general mobilization of their military forces. We followed with similar orders. The naval force at Panama, consisting of three gunboats, is assumed to have been sent on a scouting expedition into the Caribbean and to have reported a greatly superior hostile force, presumably the first imaginary detachment which had appeared in the Atlantic. Our Atlantic fleet is being held at Narragansett Bay in anticipation of an attack by the imaginary hostile fleet, which is superior in strength. Our Pacific fleet will reach the canal the day after tomorrow of 15th inst.

TOLLS INCREASE

Tolls from the canal increased sharply at first, but finally they reached a point where they covered the cost of operation. At the end of the fiscal year 1921, the total of tolls and revenue amounted to more than the total running expenses since traffic started. Since the summer of 1921 we have been able to consider our venture at the isthmus as a strictly business. Tolls had to be raised in proportion to the day when the first steam shovel lifted the first load of earth.

"We are justified in stating that the commercial value of the canal is being secured, yet it is only getting into its stride as a business proposition."

"The canal has fulfilled President Hayes's prediction that it would become a part of the coastwise of the United States. Ever since the task was finished there has been a progressive increase in international traffic until during that same month of October, 1923, half of the boats going through were engaged in American coastwise trade. Grains from the Central States, fruits from our coasts, oil from California and lumber from Washington and Oregon are found in these cargoes."

CANAL'S CAPACITY

"The increasing business and commercial value of the canal is well secured that the question has been raised whether or not consideration should be given to the possibility that even more ships may be more business than can be handled with the present plant. This, however, is a future question and we are a long distance from the danger mark. If it were necessary to increase the locks or the water supply the cost would be defrayed from the revenue resulting from the increased traffic which caused the extension. "From the standpoint of national defense the Panama Canal has two aspects. In the first place it would have more than normal commercial value in war due to the increased transportation needs incident to the movement of troops and military supplies. In the second place, the canal enters fundamentally into our plans for defense."

"One of the most important duties of our regular Army is to provide that protection which will assure maintenance of the Panama Canal in operating condition under any condition."

"There are several ways in which the canal might be attacked. The

Diagram of Panama Canal drawn by Artlet Owens showing points of attack by "hostile" fleet in attempt to prevent or delay passage of Pacific Fleet through the Big Ditch to the Caribbean Sea.

COMMON SENSE PLEA OF DAWES

(Continued from First Page)

"The impression was most favorable; the beginning of the discussion augurs well."

Col. James A. Logan, American unofficial observer on the Reparations Commission, expressed himself to the same effect, while M. Barthou, president of the commission, declared that the committee could not have got to work under better auspices.

After a three and a half hour session this afternoon, the meeting adjourned until tomorrow at 10 o'clock. The committee adopted a resolution providing that the records of the proceedings be kept absolutely confidential. The secretary alone is authorized to give out statements, when approved by the members.

AGREEMENTS COME SLOWLY

"The difficulties involved in the determination of the Allied policy both in time of war and in time of peace are little realized by the average citizen in all countries. To him it seems strange that even the common-sense agreements which are made in times of emergency characterize Allied policy, come about so slowly."

"He does not realize the barriers which must be first beaten down, erected by national pride and the pride of the war by all the military and naval officials whose powers are affected by any act of compromise or inter-Allied coordination, and by the incessant misrepresentations and intolerable interjections of those foul and cartoon-loving politicians of all countries—who would exploit their pitiful personalities out of a common misfortune."

"Let me illustrate: Napoleon's sixty-fourth million of war was that nothing in war is more important than a central command under one chief. This great principle was realized and accepted at the beginning of the war by all the military authorities in the world and yet, after nearly four years of warfare and untold millions of men and hundreds of millions in material wealth, the German army on March 11, 1918, struck a decisive blow at the British and French armies and broke through the lines of communications and other installations which would care for his eventual army."

"During the first seven months from the time we landed in France there were more than 100,000 American ships of war, and the Americans sailed back to the United States 17,000,000 tons, of which 10,000,000 tons had been furnished chiefly by Great Britain, already severely stripped of their resources by three years of devastating warfare."

CAME EMPTY-HANDED

"When we came to the empty-handed reaching to our friends for the needed supplies. You may be sure that we did not start to tell our Allies what great men we were and how much we knew. At their feet, humble in opinion, out of their large experience we tried to learn the lessons of the war emergency. "Great Britain furnished us ships to transport the bulk of our troops. We fired only French ammunition from French guns. Our artillery was carried into action by French horses. We flew French airplanes at the beginning. Belgian locomotives carried our materials. Italy furnished us men to work upon our lines of communication. Our Allies from their deepened stocks helped us with a generosity to express gratification for which I find no adequate terms. I think there was a time in which our government did not fail, and that was in the supply of 2,000,000 splendid men who, under Pershing, marched and fought with your heroic troops in the final great and victorious struggle."

YIELDED POWER

"The British army was forced back upon its lines of communication and the French army was forced back upon its lines of communication. Then it was that the Allies, facing the abyss, yielded part of their sovereign power for the time being to the central command under French which paved the way to the Allied victory."

"What brought about the complete Allied co-operation in time of war? Nothing but an overwhelming emergency. And when the victory came and the Treaty of Versailles was signed, what came natural forces and immutable laws of human nature which prevented the earlier agreement upon a central Allied command in time of war from continuing to prevent a common Allied plan in time of peace?"

"What is the answer of today. From what does the success of this committee depend upon the recovery of peace?"

"Primarily, no. Upon honesty and ability. Primarily, no. It depends chiefly upon whether in the public mind and conscience of the Allies and of the world there is an adequate conception of the great disaster which faces each ally and Europe unless common sense is crowned king."

"Does this conception exist? We do not know, but we shall know. To this knowledge of whether this conception exists the result of our work and the action of the Repa-

common difficulties; with the belief that in the Providence of God, humanity is being guided by day, and with the prayer that, however little as individuals may be our contribution to better things, it will be all we have, let us approach our common work."

"Now, let us consider for a moment the situation here as it is confronted by two American business men, who some three weeks ago were invited by the reparations commission to give detailed attention in connection with the proposed work which we start today. Like the other citizens of our own and other countries, our information consisted of what we had read in the newspapers and the words upon the question of Germany's capacity to pay, have been listening thus far to the medical experts. Let us first help Germany to get well."

NEED FOR REPARATIONS

"We are intruded with considering means of balancing the budget and measures to be taken to stabilize the currency. If, without fear or favor, we suggest a plan for the stabilization of the German currency and the balancing of the German budget, which the Reparations Commission deems fit to ratify we will at least have done this—we will have suggested that which has enabled the Reparations Commission to start the reparations work and the re-establishment of German productivity is the starting point of European prosperity."

"As the economic processes of Germany under a stable currency and with a balanced budget are revived there will be demonstrated the capacity of Germany to pay. The basic and controlling facts will then appear. Any common-sense individual can estimate the distance a well-managed man can run. Fifty medical experts gathered around the bedside of a dying patient will give fifty estimates of how far he can run if he gets well. The Reparations Commission and the world upon the question of Germany's capacity to pay, have been listening thus far to the medical experts. Let us first help Germany to get well."

DANGERS FACED

"We had seen the Allies finally and really united under a single command obtain the military victory which we had supposed was the precursor of a better world. For five years since that time and the signing of the Treaty of Versailles we had seen the Allies losing the unity of understanding which is always essential to real peace. We had seen the Allies brought all Europe to a most critical and dangerous situation."

"This is no time to succumb. What today, at the inception of the work of this committee, have we found? In the first place, we see an impossible and colossal fog bank of economic opinion based upon premises of fact which have changed so rapidly as to make the bulk of them worthless, even if they were in agreement."

"With all due respect to the great ability of these experts who have been gathered here, they could not have failed to come out in opposite directions. They were confused with the fog bank of economic opinion based upon premises of fact which have changed so rapidly as to make the bulk of them worthless, even if they were in agreement."

VALUES CHANGING

"If, in their computations, designed to clarify the mind, they dealt with the mark, the unit of value, the mark was something else; if the deal with the dollar, the pound, the French or Belgian franc or the Italian lire, these were one value in exchange for each and another in internal purchasing power; if they dealt with the franc, there were values in precious gold and post-war gold to be considered. In general, we fail to find much value in economic arguments based upon what ought to be instead of what is, based, in other words, upon a constantly changing status quo."

"Meanwhile, while these immense libraries for they can be called by no other name—of legal argument, of more or less obsolete statistics and of economic discussions were being laboriously compiled for five years, the foundations of the economic life of Germany have crumbled away, and with them the productivity of Germany."

"Again, as the world has seen the economic life of Germany crumbling away, the credit of all the European Allies has felt a preliminary shock, because the world realizes that the German people lost their capacity to pay those reparations which are so great an element in European solvency."

SEEK PRACTICAL WAY

"It would seem that that was the situation as it develops in the minds of our American members of this committee. It must have been regarded in much the same way by the Reparations Commission, to whom this committee of practical men, free from political pressure, owes its creation. Realizing that the house was afloat they proposed to find some water to put it out without the further use of mathematics involving the fourth dimension."

"By their instructions they have enabled us to start work on the basis of the status quo. We are not asked to determine legality of the occupation of the Ruhr. We are not asked to declare the political effects of that prospective act of common sense. We are not asked to give our opinion on those things which the politicians of all countries have interjected into a situation which primarily demands for its proper consideration business minds uninfluenced by political ambition or thought of personal consequences."

"Upon our report to the Reparations Commission of a plan for the stabilization of German currency and the balancing of the German budget it is for them, not to be concerned with the political effects. The more I have talked with those here who are nearest the situation the more I have realized the great wisdom the

AMONG FRIENDS

"With these memories of old associations, it is surprising that I feel as if I had come among friends. With the confidence and belief in each other which we had during the war and the love which has come from past associations in

Emerald Glass Shade

A treat for Typists' Eyes

MACHINE operation is often trying to the eyes, especially with improper lighting.

Glaring or misplaced lights hurt the eyes, which deserve protection rather than abuse. Eyes be have better and last longer when working with a light that suits them.

Daylight is best because Nature made it right for eyes. That is why every Emerald has a special screen which changes ordinary electric light into soft, eye-saving daylight.

Emeralds are a treat—not a threat to the eyes—please operators and increase output. They are also attractive, harmonize with and enhance the dignity of any environment.

Model No. 8734 TTY, illustrated, is adjustable to any desk or machine. Brush brass or chrome finish. Genuine Emeralds are branded and have the Daylite Screen. Look for trade mark. It is your guarantee of satisfaction.

Sold by office supply and electrical dealers. Write for illustrated booklet showing over 50 models. Enclosed for free literature. Send address where you live.

WANTS FARMING BUSINESSLIKE

Stockman Says It is Only Hope of Agriculture

Addresses Conference With Manufacturing Men

Parley Indorses Coolidge for Presidency

(BY A. P. NIGHT WIRE)

CHICAGO, Jan. 14.—An appeal to the farmers to put farming on a more businesslike basis and another appeal for the deepening of the waterways from the Great Lakes to the Gulf, and from the lakes to the sea, an endorsement by the conference of President Coolidge, and an attack on Socialistic and Communistic methods were the high spots of the first session today of the farmers' and manufacturers' conference, sponsored by the Illinois Manufacturers' Association.

John K. Kelley, Saraboo, Wis., a stockman, told the conference that co-operative marketing, federal price fixing, tariff, currency regulation or anything else would prove a failure to help the farmer so long as the present business methods of the farmer prevailed.

"Put farming on a business basis," said Mr. Kelley, "is from every viewpoint it holds the greatest opportunity for advancement and progress of any industry in the world. Not one farmer in a thousand knows production costs and there is no system in accounting. A cost mark on products would be worth a billion dollars a year to agriculture. You can no more prescribe co-operative marketing as a blanket remedy than you can prescribe a general diet and have it fit all patients."

ELGIN WATCH CHIEF DIES

(EXCLUSIVE DISPATCH)

CHICAGO, Jan. 14.—Charles H. Hulburd, 73 years of age, president of the Elgin Watch Company, died today at his home, 1113 Lakeshore Drive. Although he had been ill for several months, he was at his office, 201 South La Salle street, last Saturday.

JIM REED TO ENTER RACE

Missouri Senator will be Backed for Democratic Nomination for Presidency by Hearst

(BY ROBERT R. ARMSTRONG)

(EXCLUSIVE DISPATCH)

WASHINGTON, Jan. 14.—Senator James A. Reed of Missouri, who arrived here this afternoon from St. Louis, is expected to formally announce his candidacy for the Democratic nomination as President not later than Wednesday. According to the information brought here by St. Louis and other Missouri party leaders, Senator Reed has agreed to go after the nomination and if he carries out the plan he will have the support of William Randolph Hearst and all his newspapers.

The formal announcement will be held back until after the Democratic convention city is definitely chosen and then will come out in a broadside announcement of the whole plan of Reed and his supporters to make a whirlwind campaign for the Democratic nomination with the hope of coming up from behind and eliminating much of the strength now claimed for McAdoo, Underwood and other leaders who have been candidates for the nomination for many months.

NO EXPLOSION

When the suggestion was made to Senator Reed when he arrived here this afternoon he did not vocally explode as he usually does when such a question is propounded. He was mild for him and without the dominating defiance of the district attorney in his attitude. All he would say for public consumption was "I have not yet been determined that I am to be a candidate for the nomination of the Democratic party for President."

But the manner of the Senator indicated that he was in a mood to make an announcement that he was a full-fledged candidate.

MURPHY BACKER

Many regard the project of Reed being a candidate as part of the plan of Brennan of Illinois, Taggart of Indiana and Murphy of New York to eliminate McAdoo and Underwood and bring out a fighting campaign from the Middle West who would put fire and brimstone into the campaign and attract liberals and radicals from both parties to his candidacy.

With the impossibility of nominating Al Smith, Governor of New York, and the demand that something be done to stop both McAdoo and Underwood, Senator Reed seems to come from the right season of the country and to have shown vote-getting power which makes him available. The same manager who elected him to the Senate is to handle his Presidential campaign.

REBELS RETREAT RAPIDLY

Mexican Federal Leaders Confident End of Revolt Is In Sight; Planes Aiding in Drive

(BY CABLE—EXCLUSIVE DISPATCH)

MEXICO CITY, Jan. 14.—With the rebels in retreat on both the western and southeastern battle fronts today, Mexican officials were confident that the end of the revolution is in sight. American travelers from the western zone of operations reported that rebel soldiers were selling their rifles to buy food.

MASSED FOR ATTACK

(BY A. P. NIGHT WIRE)

EL PASO (Tex.), Jan. 14.—President Alvaro Obregon has decided to remain indefinitely on the Jalisco front until the issue there is decided, according to reports received here today by radio from Mexico City. He has been in conference with Gen. Joaquin Amaro, commander of the troops in the western sector, for several days and will personally direct the operations against the forces of Enrique Estrada, commanding the rebels.

Federals have been massing for an attack on the Jalisco front for several days and only the setting up of airplanes is awaited before a general attack is made along the line, wireless advices said. Estrada has been concentrating his position, and if this is expected in routing the rebels from their entrenchments before the city of Guadalupe.

Revolutionary forces under Gen. Fortunato Maycotte have retreated from the city of Tehuacan, Puebla, and are attempting to form a junction with the army of Guadalupe Sanchez at Esperanza, the radio dispatches stated. This move shortens the front and will enable the Federals to throw a large force of men against the rebel front at Esperanza and Oriental.

ON BATTLE FRONT

(EXCLUSIVE DISPATCH)

PENJAMO (Mex.), Jan. 13.—The Presidential train, with President Obregon and his staff on board, left Irapuato today shortly after 1 p.m., arriving at the battle line at Penjamo in an hour and a half. With President Obregon are Gen. Escobar, Gen. Berlanga, Escalona and Amaro, all of whom will take part in the coming fight. Airplanes accompanied the Presidential train, flying around and around it. All along the way everything was perfectly quiet.

We met outposts of the national forces at Corralitos, halfway between Irapuato and this city, and at other points along the way. Scouting parties report having seen troops of the enemy between Penjamo and La Piedad, where the rebels have a base of operation. The strength and position of the insurgent army are perfectly well known, but airplanes arriving at Irapuato today will be put in operation against the rebels, who are reported to be concentrating their forces in this territory.

REBELS TURN RANDITS

(EXCLUSIVE DISPATCH)

LAREDO (Tex.), Jan. 14.—Reports reaching Laredo today state that small bands of troops operating in the vicinity of Guerrero are raiding ranches and carrying off horses and supplies. Near Columbia, northwest of Laredo, Gen. Villareal has gathered 150 supporters and is recruiting rapidly. There has been

The FAULTLESS Brings a Three Hour Wash Day

Make it Happy Monday next week instead of the old-time "Blue Monday," when washing took all the strength that Sunday's rest had brought you.

For now with the FAULTLESS—washer, wringer, ironer—all three in one, you can get your laundry work out of the way in a few hours' time. Everything spotlessly clean and ironed perfectly.

The FAULTLESS is the only washing machine that has an ironer attached. It can do practically all of your ironing—dainty wearing apparel as well as household linens.

The average family's weekly washing and ironing can be done on the FAULTLESS in 3 hours' time, at a cost of 20 cents.

Let us show you exactly how marvelously well FAULTLESS will do all your laundry.

A year's supply of the best washing machine soap given free with every FAULTLESS.

RADICALS WIN COURT RULING

Pair Convicted for I.W.O. Connections Freed

Criminal Syndicalism Act Provision Defined

Knowledge of Wrong While Joining Necessary

(BY A. P. MONT WIRE)

SACRAMENTO, Jan. 14.—Partners in the Industrial Workers of the World or a similar organization must do so with a knowledge of its unlawful character in order to be convicted under provisions of the Criminal Syndicalism Act of California, the District Court of Appeal held today in reversing judgment of conviction in the case of William Flanagan and Albert Strangland, asserted members of the I.W.O., who were tried in the Superior Court of Sacramento county several months ago.

The trial court was reversed on the ground that the court instructed the jury, which tried the case of Flanagan and three others, that it did not make any difference whether a person who joined an organization knew whether such organization was unlawful.

Under the law, the Appellate holds in its decision, a person must knowingly join such an organization. The decision also points out that a person might be influenced to join an organization innocent of its unlawful character. Therefore, the court holds in order to obtain a conviction it must be shown that a defendant, an individual, knew that he was joining an unlawful organization.

Flanagan and Strangland were convicted last May in the court of Judge Charles O. Husek and each was sentenced to serve from one to four years in prison. Three other members of the I.W.O.—Oscar Gutierrez, Art Jolley and David Bryant—were tried jointly with them but were acquitted by the jury.

PICK WORLD FLIGHT PAIR AT BAY CITY

(BY A. P. MONT WIRE)

SAN FRANCISCO, Jan. 14.—Technical Sergeant Arthur H. Turner, and First Sergeant Charles F. Gravin, United States Army Air Service, stationed at the Presidio here, have been named as mechanical flyers for the around-the-world flight which the Army is to start about April 1. It was stated today at the headquarters of the Ninth Corps Army Area. The two sergeants will proceed to Langley Field, Va., for instruction within the next few days.

NEW ADJUTANT NAMED FOR AMERICAN LEGION

(BY A. P. MONT WIRE)

INDIANAPOLIS, Jan. 14.—Appointment of Russell G. Criverton of Marion, Ind., as national adjutant of the American Legion to succeed Lemuel Bellis of Minneapolis, Minn., who resigned recently, was announced today by the Legion's national executive committee. Criverton has been assistant adjutant.

TESTIMONY OF CURTAIN WINS CASE

Neighbor Tells How Wife Fled House When Trouble at Home Threatened

(BY A. P. MONT WIRE)

DETROIT, Jan. 14.—Her husband's fiery temper struck such fear into her heart that she was forced to improvise a signal system so she could notify her next-door neighbor when he was on a rampage, Mrs. Jewel M. La Plant, a choir singer, testified before Judge Joseph A. Moynihan in Circuit Court. She was granted a divorce from Howard R. La Plant, 48 weeks alimony and the custody of her infant son.

Mrs. La Plant, who lives at 1444 West Grand Boulevard, charged her husband with cruelty. She said she frequently fled from the house because of his brutality. Mrs. La Plant said she was a neighbor of Mrs. La Plant for eight months. Mrs. La Plant, she stated, always found her husband, they arranged a signal system whether Mrs. La Plant could notify her by lowering a certain window curtain. Mrs. La Plant said she was a neighbor of Mrs. La Plant for eight months. Mrs. La Plant, she stated, always found her husband, they arranged a signal system whether Mrs. La Plant could notify her by lowering a certain window curtain. Mrs. La Plant said she was a neighbor of Mrs. La Plant for eight months.

PRISONER ESCAPES

Takes Hike From Guard When He Slips on Ice

(BY A. P. MONT WIRE)

LEAVENWORTH (Kan.) Jan. 14.—Taking advantage of an opportunity to escape after his guard had slipped and fallen on the icy ground, Alton E. Arnett, a prisoner, still was at liberty tonight. Private Clarence Adams, the guard, who notified authorities of the escape, said Arnett leaped on him after he had failed to take his rifle and twenty rounds of ammunition and then forced him to exchange clothes.

OFFICER IS HELD FOR FAILURE TO PROVIDE

(BY A. P. MONT WIRE)

VENICE, Jan. 14.—Patrolman Walter E. Sharon, a member of the Venice police force, was arrested today by Deputy Sheriff Shultz and Fox on a telegraphic warrant from Coquille, Or., charging failure to provide for two minor children. Sharon said the children were cared for by his divorced wife.

Private Letters of Theodore Roosevelt's Inseparable Friend Archie Butt

These extraordinary letters, written when young Butt was aide at the White House, add a new chapter to the history of American politics and social life.

They tell a new story of Theodore Roosevelt and his activities as President.

They are a modern counterpart of Peppy and Boswell combined, and they may be likened to Mabel's diary without its veneer.

The Butt Letters Will Appear Daily for Eight Weeks in THE TIMES Beginning next Sunday

FUGITIVE SUSPECT IN TOILS

Man Long Wanted on Embezzlement Charge at Fresno Under Arrest at Seattle

FRESNO, Jan. 14.—After being missing for nearly three years, Francis Raymond Clark, wanted here for alleged embezzlement of \$400 from the American Railway Express, with whom he was employed at the time, has been arrested in Seattle, Wash., according to advices to the Fresno police.

At the instance of company officials here who declared they were advised Clark would waive extradition and return here to plead guilty, the local police have sent an urgent wire request to the Seattle authorities that the fugitive be turned over to Fresno officials, but Chief of Police W. B. Clark has declined the request. Clark is to be turned over to the Chief Constable of Edmonton, Canada, on forged charges.

CLAN CHIEF REFUSES TO GIVE UP JOB

Simmons Defies Order of Wizard Ousting Him From Post as Emperor

(BY A. P. MONT WIRE)

ATLANTA (Ga.) Jan. 14.—Declaring "I am Emperor of the Knights of the Ku Klux Klan," William Joseph Simmons, founder of the organization, tonight in a signed statement called on fellow-Klansmen to pay no attention to the order signed by H. W. Evans, Imperial Wizard, to oust him from the post as Emperor. Simmons, founder of the organization, tonight in a signed statement called on fellow-Klansmen to pay no attention to the order signed by H. W. Evans, Imperial Wizard, to oust him from the post as Emperor.

The two high officials were ordered to be ousted from the Klan last week by an edict said to have been signed by the Imperial Wizard because, it was charged, they were hostile to the Evans administration. It was declared that the decision was reached during a meeting of Grand Dragons in Washington. "Dr. Evans, having through premeditated friendship to me," the Emperor stated, "gained the position of Imperial Wizard, has issued an unauthorized order attempting to banish me from the post of the Ku Klux Klan, of which I am the sole founder. He assigned as an excuse a request from several of his Grand Dragons, who, under the constitution and laws of the Klan, have nothing to do with such matters. The whole act is unwarranted, illegal and beyond his power. Dr. Evans, according to officers at the Imperial Palace, is away from Atlanta. He would not divulge his whereabouts."

STATE SUPERVISES BANK'S OPERATION

(BY A. P. MONT WIRE)

ST. LOUIS, Mo., Jan. 14.—The St. Louis Falls Bank Savings Bank, with deposits of \$1,000,000, today was placed under supervision of the State Deposit Guaranty Fund Commission and will temporarily suspend payments on deposits, it was announced here. First reports were that the bank had been closed, but these were corrected by subsequent announcement that the institution would remain open under State supervision.

PLAN TO CUT OWN SALARY IS DEFEATED

County Board Points Out Revision Might Raise Cry of Bankruptcy

(BY A. P. MONT WIRE)

NORWICH (N. Y.) Jan. 14.—Believe it or not, but County Judge Herbert Stratton of Chenango county is meeting opposition in his fight for a pay decrease. It does not come from Mrs. Stratton, either. The jurist receives \$4000 for setting as county judge and surrogate, \$500 for services performed under the transfer law and \$500 for presiding over the Children Court. He has not yet received the Children's Court stipend and does not want to take it. He even wants his salary as judge reduced to \$3500.

Judge Stratton explains the county can "hardly afford to pay" him so much and the job is not worth that much, anyhow. However, some members of the board oppose this, as they say it will be said all over the State that Chenango county is on the rocks financially. Consequently no action has been taken on the judge's request.

SING SING WORKERS ASK PAY INCREASES

(BY A. P. MONT WIRE)

OSKANYING (N. Y.) Jan. 14.—Asks for three chaplains and doctors on the official staff at Sing Sing prison, their trying work at executions being given as the reason for the request, contained in the tentative budget just sent to the Legislature. Raises are asked for most of the prison officials, which would make the total payroll for the ensuing fiscal year \$263,200 against \$245,050 for the current year.

SAYS FIGHT WITH FILM STAR ENDED

(BY A. P. MONT WIRE)

PARIS, Jan. 14.—A Paris newspaper's attempt to reopen for discussion the now famous case in which Clara M. Merode sued Max Murray, film actor, for \$1,000,000 francs was quashed by Mme. Merode, who declared the episode closed.

In the suit Mme. Merode charged that Max Murray had libeled her by using incidents of her life in the film, "Fanny Hill."

The courts decided there was nothing dishonorable to Mme. Merode about the film, and she lost the case.

WILMINGTON

...the Portal of Southland Commerce

LOS ANGELES HARBOR has taken the lead
over all other western ports and is second only
to New York in the volume of coastal tonnage
passing through it.

Think what this means to the city of Los Angeles and
then multiply those benefits tenfold and you may arrive at
the advantage that *Wilmington* holds in Los Angeles' drama
of progress.

Of the 85 lines of steamers that make Los Angeles
Harbor a regular port of call, 47 dock
at *Wilmington*. From every port on the
globe, vessels flying the flags of almost
every maritime country enter the Har-
bor and dock at *Wilmington*.

History of shipping the world over
indicates that ships always point their
noses as far inland as possible and there
grow our large maritime cities. *Wilm-*
ington has the farthest inland wharfage

of the Los Angeles Harbor. It is the farthest East of any
Western port (excepting San Diego)—it commands the
freight passing in both directions on continent and ocean.
More than two thirds of the United States is nearer by rail to
this harbor than its nearest competitor on the Pacific Coast.

The future is assured.

Naturally this strategic location is attracting world wide
attention. Keen business men with vision see in *Wilmington*
the city of Opportunity. They are coming here in countless
numbers. They are investing heavily in
industries, in shipping facilities and in
commercial enterprises.

Wilmington is one of Southern Calif-
ornia's oldest towns. Recent Harbor
developments have made it a new city.
Come and see *Wilmington*—investigate
the money making opportunities that it
offers you—see its residential advantages
—we welcome you to share in our prosperity.

Stop Your Cold This New Easy Way

Don't Suffer When You Can Get
Immediate Relief with New
Treatment

There is no need for you to go through this winter with reoccurring colds which lower your vitality and resistance to disease. It is now possible to break the most stubborn cold in a few hours with the new, scientific, Safe-Vol treatment which simply calls for taking one pleasant tablet every three hours until three or four have been taken.

Safe-Vol brings an amazing sense of cheeriness to the head and throat in a few minutes, and complete freedom from cold symptoms over night in most instances. Get a package for a few cents at any drug store. Money back if it does not bring relief. (Advertisement)

Hair-Dres

A Clear Liquid
A few drops rubbed into your hair makes it soft, silky and keeps it well groomed. Not messy or sticky.

At Drug Stores
And Barber Shops

ECZEMA GONE, SKIN ALL WELL— POSAM DID IT

Itching and burning stopped, no more digging and scratching, and that unsightly eruption almost gone overnight! That's what safe, CONCENTRATED Posam does. Nothing like it for eczema and other skin ailments. At all druggists 50c.

NEED OF FARM AID STRESSED

Market League Head Speaks
to Kansas Chamber

Says Devotion to City is
Likely to Increase

Foreign Business Necessary, His Declaration

WICHITA, Kan., Jan. 14.—Desertion of the farms by more than 1,000,000 farmers unless the equilibrium between the farm and the city is re-established was predicted by C. C. Lacey of Dodge City, Kan., secretary of the Farmers' Foreign Market League, in an address before members of the local Chamber of Commerce. Mr. Lacey is a prominent lumberman and grain dealer of Dodge City.

"The world's current wheat crop is \$400,000,000 bushels short as compared with that of 1913," said Mr. Lacey. "Western Europe is short millions of meat animals, and yet our beef exporters are only 1 per cent of what they were in 1913. Russia is probably out of wheat wheat figures, but Russia's production is small as compared with that of previous years, although at its highest it was only about 100,000,000 bushels.

"Secretary Hoover warned us about three years ago that if we did not take care of our foreign trade the industry would suffer. The farmer is now experiencing that fact. While France is urged to accept whatever Germany can pay as reparations, France is told by us that we cannot scale our account against her 1 cent because of the present debt-funding law. The result is that gold is pouring into this country, choking our system of commerce and destroying purchasing power of European markets."

The platform of the Farmers' Foreign Market League, which was formed here recently, demands that the debt-funding law be amended or repealed, that a conference be called to deal frankly and fairly with the world financial problems, adjusting debts as well as reparations to capacity of debtor nations. Its purpose is stated to be that of recovering the European market for American farmers. R. M. Black is president of the League, which has headquarters here.

ASIA BANK MERGER WORRIES FAR EAST

AMERICAN SET WITHDRAWAL
OF FINANCIAL AID
IN ORIENT

BY JOHN POWELL
SHANGHAI, Jan. 14.—The withdrawal of the Asia Banking Corporation, a branch of the Guaranty Trust Company of New York and one of the two principal American financial organizations in the Far East, is causing considerable apprehension in America as well as Chinese circles here.

If, according to the announcement last week, the banking corporation is being amalgamated with the International Bank, a subsidiary of the National City Bank of New York, it means the closing of eight branches stretching from San Francisco to Manila, including five in China.

The apprehension is due to the standing of the bank which opened here five years ago with extensive plans for developing American financial activities in the Orient and also to rumors in these circles of the gradual withdrawal of American commercial and financial activities in the Far East.

Some circles connect the withdrawal of the Asia Bank with the disturbed political situation in China and the future of the Washington administration to adopt a definite program respecting the Chinese situation which it was hoped would follow the Washington Conference.

PAIR IN SAME BED YET IN TWO TOWNS

COUPLES HOME ON DIVIDING
LINE OF HAZARD
MUNICIPALITIES

CHICAGO, Jan. 14.—Although they reside in the same house, Mr. and Mrs. William F. Jones do not live in the same town. Their home is situated on the imaginary line dividing the towns of Maywood and Bellwood. Curiously enough, the bedroom is directly over the line, so that half the bed is in Bellwood and the other half in Maywood.

Mr. Jones, as the official head of the family, sleeps on the Maywood side of the bed and Mrs. Jones on the Bellwood side. Thus the family, which pays taxes in both villages, has a vote in each.

For a long time the Jones family has known of its location in the United States, the State of Illinois and the county of Cook, but it required the services of a surveyor and a search through the records to determine that the family resided in one house and two towns.

CITY NEEDS CASH; TAXI DRIVERS HIT

DOULAS (Ariz.) Jan. 14.—There is distress among the motor-car men and taxi drivers who have been furnishing the means of communication between Ariz. Douglas and situated Agua Prieta, just across the international line. They have just been advised that the municipality of Agua Prieta, needing more money, has doubled the taxi license fee. It is told that the lot of the taxi man hereafter has not been exactly a happy one, as he was called upon often, south of the line, for "donations" and special charges on his occupation.

Romance and the Man

"He married him because of his title," exclaimed Miss Cayenne, "what a lot a title has to do with producing a best seller!"

WASHINGTON, Jan. 14.—Miss

MIDDLE WEST NEWS IN BRIEF

(EXCLUSIVE DISPATCH)

MILWAUKEE, Jan. 14.—The 1933 traffic survey recently prepared by the Highway Commission shows there were more out-of-State automobiles in Wisconsin during the last summer than any previous year. Practically every county in the State enjoyed an increase in traffic ranging from 4 to 40 per cent over the same period in 1932. It is estimated that 2,500 people vacationed in Wisconsin last season and spent \$100,000,000. Final negotiations have been completed for a \$1,000,000 hotel for Wisconsin by a group of Wisconsin citizens with the Chris Schroeder & Son Company of Milwaukee to finance it. The hotel, located on the shore of the Koshong lake, is to be purchased and possession taken on March 1, after which the hotel will be torn down and replaced by at least a five-story structure.

Dr. F. C. Werner, head of the Common Pleas Company and Waterstown's oldest physician in point of service, was found dead at his home there yesterday. Death followed a paralytic stroke. Dr. Werner had practiced in Waterstown since 1870.

Dr. Herman Weicker, prominent resident of Fish Creek, summer hotel owner, is dead at his home at Sturgeon Bay. He was 75 years old.

KANSAS CITY, Jan. 14.—Mrs. George Edward George, died yesterday of pneumonia at the Research Hospital. She recently underwent a major operation and had been in declining health since. A gasoline tax of 1 cent on every gallon sold in Moberly by wholesalers is the latest city ordinance, which has been passed by the Moberly City Council. The money derived from the tax is to be applied to maintenance of streets. The ordinance becomes effective February 1.

Mr. and Mrs. Gilbert Bell of Topeka have left for California.

ST. LOUIS, Jan. 14.—Bishop W. A. Quayle of Louisville, Ky., presiding bishop of the St. Louis district of the Methodist Episcopal Church, South, is in St. Louis for the first time in several months, following his recent illness.

A third concrete floating dock to cost \$100,000 will be installed on the East St. Louis water front by the Federal Barge Line, Col. T. Q. Ashburn, head of the War Department waterways service announced yesterday. The dock is now at New Orleans but will be towed up the river when the spring floods heighten the water.

Leaving T. Smith has made a gift of \$10,000 to the Y.M.C.A. for a farm for boys on the Niagara River in the Otsego Mountains. Eight cottages will be built on the farm and seventy-five boys can be accommodated there at a time. The place will be put into operation next summer.

Louis Martin, 65 years of age, president of the St. Charles Savings Bank for two years prior to his resignation six months ago because of ill health, died last night at the home of his sister, Miss Lena Martin. Death was due to cancer.

Leighton Shields, a St. Louis attorney, has given to the city of St. Louis three acres of land on the property of the new State Highway, six blocks from the Courthouse. The tract will be used as a city park. It is to be improved at once by the City Council and called Shields Park as a memorial to Judge George H. Shields, a former citizen of St. Louis and a former circuit judge of that district.

OMAHA, Jan. 14.—Nebraska's new marriage law, during the five months of its operation cut down by 42 per cent the number of marriage licenses issued in Platte county as compared with the previous year.

Cordis is to have a new \$100,000 State aid bridge across the North Platte. Gov. Bryan informed a committee from Platte county, headed by State Senator C. E. Allen of Dawson county, which called at the Governor's office to plead for the bridge.

Dr. Frederic Bacon, 65 years of age, died yesterday at his home here. Dr. Bacon had practiced in Omaha for thirty years and for the last year had been an invalid.

Mr. and Mrs. George Johnston leave in February on a trip to California.

Mrs. Edgar Scott and Mrs. Julia James of Omaha are wintering in Southern California.

LOUISVILLE, Jan. 14.—H. Eugene Snyder, secretary of the Louisville Courier-Journal, died December 31, from effects of a self-inflicted gun shot wound in October last, left an estate of \$14,000, according to his will, probated in the County Court. He leaves his estate to his widow, Mrs. Ida May Snyder, to be used as she sees fit.

Louisville spent \$20,911,666 on buildings in 1933, according to figures compiled by the Building Inspector. The total construction cost for the year was \$21,624,681. To this has been added the figures for plumbing, signs, elevators and boiler installation, giving a grand total of nearly \$22,000,000.

Mr. and Mrs. Thomas M. Murphy of St. Matthews have left for New Orleans and Southern California where they will spend two months.

DER MOINES

DER MOINES, Jan. 14.—Sheriffs in Iowa will not receive more than \$250, annually for lodging county prisoners, under the provisions of a code bill as amended and passed by the House of the Iowa Legislature. The amendment is aimed at alleged excessive profits, which Iowa sheriffs in the larger cities have been making under the fee systems of payment.

Helen Schultz of Mason City, manager of the Red Ball Tourist Company, stated yesterday that the State tax on buses was too heavy and may in time crush the bus lines in the State.

Carroll county was again covered with a heavy blanket of snow during Saturday night and Sunday morning, blocking the country roads in many sections and rendering railroad traffic uncertain. Rural carriers were obliged to turn back after starting on their routes on account of snowdrifts, which in many places are from five to six feet deep.

INDIANAPOLIS, Jan. 14.—Miss

Flora Shank, for a number of years identified with the work of the Y.W.C.A. in the United States, is dead at her home here. Death was due to an attack of influenza. Mrs. Shank was the widow of Mayor Shank. She was a graduate of Butler College.

James Albert Woodburn, author and head of the head of department at Indiana University, will retire from the faculty next June after more than forty years of service. He is 65 years old. An honorary chair may be created by the university for him. He is president of the Indiana Historical Society and only last month retired from the presidency of the National Cosmopolitan Club.

Mrs. Laura Regan McClelland, wife of W. R. McClelland, died at the home of her sister, Mrs. O. B. Griggs at New Smyrna, Fla., according to word received in this city. She will be buried in Florida.

Information obtained from reliable sources indicates that a score or more of damage suits will be filed against the city of Fort Wayne as a result of death and illness in the typhoid epidemic which raged through the east side of the city for a period of six weeks. It is understood that attorneys are now working on the papers to be filed but what damages will be asked or what the petitions will allege or contain has not been revealed.

DENVER, Jan. 14.—Daniel F. Couch, prominent rancher and bank official of Littleton, Colo., who lived on his farm seven miles southwest of Littleton for fifty years, died suddenly of heart disease. He was active in the management of his ranch and banking affairs up to the time of his death.

John P. Anderson, retired contractor and pioneer resident of Denver, is dead at his home here. He was 76 years old. Anderson came to Denver forty years ago and was prominent in the Masonic lodge. He was a Shriner and a Knight Templar.

Work is to be begun within thirty days by the Rocky Mountain Smelting and Refining Company at a \$120,000 smelter and a \$50,000 refinery near Golden. The company was given a nine-acre site by the Golden Chamber of Commerce. The site is located on the old Carpenter smelter, which was abandoned many years ago.

DETROIT, Jan. 14.—Outgrowing its present quarters in less than seven years, the Detroit lodge of Elks has purchased the site on the northwest corner of Lafayette Boulevard and Cass avenue, on which it will erect what members say will be one of the finest clubhouses in the United States, costing \$1,250,000, exclusive of the site. The new clubhouse will be an eight-story building of modern construction and contain among other features a large auditorium.

The income on the estate of Mrs. Mary Caplin, who died January 3, is to be for her brother, Thomas L. McCrory. The estate is estimated at \$350,000 "and upward." At McCrory's death the principal goes to the Roman Catholic Church to be administered by the bishop of the diocese of Detroit.

Mr. and Mrs. Hugh Chalmers will leave this morning for Chamonix, where they will spend the balance of the winter.

Mrs. Lottie A. Weis, 43 years of age, a prominent resident of Minneapolis, died last night after an illness of six months. Her husband, Otto Weis, a member of the Weis Manufacturing Company, died seven years ago. She leaves two sons and two daughters.

LAST FUNDS BUY COLORS FOR COFFIN

Military Honor Paid to
Former Greek Who Served
During World War

TUCSON (Ariz.) Jan. 14.—A large American flag—purchased with the last few dollars he possessed—today draped the coffin of William G. Haas, as it was lowered into the grave, and a firing squad fired a volley and a bugler sounded taps. Haas, a native of Greece, but 100 per cent loyal American, was given a military funeral in token of his loyalty.

A few weeks ago Haas was informed that he had been stricken with a fatal illness. He delivered to his nurse his few remaining dollars and bade her purchase a flag to be placed on the wall of his hospital room and as a drapery for his coffin at his death.

With almost no money left, Haas volunteered for service in the American Army in June, 1918, was accepted and served until after the signing of the armistice. His home at the time was Ogden, Utah.

WHISKY SLEUTH JOB IS POPULAR

DENVER CIVIL SERVICE HEAD
SAVS EXAMINATIONS ARE
MUCH IN DEMAND

DENVER, Jan. 14.—Sleuthing down big whisky conspiracies is a popular occupation, to judge from the number of applicants who will take civil service examination here for the position of special agent of the bureau of intelligence of the internal revenue department.

While John G. Teicher, secretary of the Colorado civil service district, finds it difficult to obtain seekers of some of the positions which the government offers, he has been swamped with applications for the prohibition job.

The ordinary civil service examination room has been deemed too small for the holding of tests and the overflow of the hundred who will take the examination will be accommodated in the petit jury room of the Federal Building. The position carries a salary of \$2,800 and gives opportunity for much travel.

A LIFE INCOME WITH TAX EXEMPTION

The Anna Life Insurance Company of Hartford, Ct., well known for safety and conservatism, is now seeking qualified persons for life insurance agents. The company is looking for men and women to sell life insurance to both while living and to survive their life. These men and women will receive a large salary and a commission on the business they sell. The company is a life insurance company and all agents are licensed to sell life insurance.

At age of \$5,000 profit on an annual income of \$100,000. At age of \$10,000 profit on an annual income of \$200,000. At age of \$20,000 profit on an annual income of \$400,000. At age of \$50,000 profit on an annual income of \$1,000,000.

NEWS OF SOUTHERN COUNTIES

CHARITY PLANS
ARE CRITICISEDCommunity Chest Proposal
is Hit by PasadenaPublication of Givers' Names
Strongly OpposedProtests Result in Directors
Abandoning Idea

By a "Times" Staff Correspondent

PASADENA, Jan. 14.—Charges that the Community Chest, Pasadena's largest charitable organization, had reduced charity to business and had "intimidated" the people into making large donations, were buried at the organization's directors today by a number of prominent citizens. Many letters criticizing the actions of the directors were received at the Community Chest headquarters today, some stating that they would not contribute to the organization which each year handles more than \$200,000 for charitable purposes.

The trouble arose when the Community Chest directors announced that the names of all contributors and the amount would be published in the daily papers. Rev. Leslie E. Learned, pastor of the All Saints' Episcopal Church, from his pulpit yesterday declared that the directors' action was a grave mistake. That the P.T.A. resolved not to solicit funds if the names were published.

Stewart E. Bruce, 470 St. John street, prominent resident of Pasadena, sent a communication to the Community Chest criticizing those in charge of the charity fund.

INTIMIDATION CHARGED

"Your intentions plainly are twofold. You are using a species of intimidation; and you are making a direct appeal to the fairly well-to-do," declared Mr. Bruce in his letter.

As I cannot be intimidated into contributing money, and as I cannot be intimidated into contributing money, and as I cannot be intimidated into contributing money, I am compelled on this account to distribute my contribution, not through your committee, but to charities direct.

"In quoting Scripture, you forgot to remind your readers of the following: 'But what the 'widow's mite' let not thy left hand know that thy right hand doeth.' That charity which is given in secret, and the donor goes forth, not in the white robes of charity, but in the tinseled raiment of a proud performer, led by a brass band.

"What your committee evidently welcomes is not the 'widow's mite' but the 'widow's mite' not what each from duty and conscience gives, but a huge fund raised by your city efforts along the lines of comparative giving as exemplified in an alphabetical list—which list is so conveniently arranged that Mrs. Pry can find out what her friend or next-door neighbor gave; then Mrs. Pry contributes a larger amount than the swelling not only the Community Chest, but the generous chest of Mrs. Pry—all resulting from your heaven-inspired alphabetical list.

PLANS ABANDONED
"America is known as the land of the almighty dollar. Through the efforts of your committee, Pasadena will become the first city to have reduced charity to business, and sealed it with the mark of the almighty dollar.

Many other protests were received today. One wealthy Pasadena woman who each year contributes a large amount, declined to do so and demanded that his name be published.

The officers of the Community Chest are J. S. MacDonnell, president of the First National Bank; John Willis Bar, Mrs. W. D. Brocker. To date the organization has collected \$216,000 for the poor of Pasadena.

At a late hour today the directors of the Community Chest held a special meeting at which time it was decided that in the interest of the community the names of donors would not be published.

Do you like Detective Stories. They read 'In the Shadows.' Thirty thrilling tales by Nick Harris, Brock stories or send \$2 to 908 Pantano Bldg., L. A.

UKRANTAN CHORUS TO
APPEAR AT POMONA

POMONA, Jan. 14.—National Ukrainian Chorus of Odessa, recalled only by the Bittine Chapel choir of Rome, will appear in Pomona the 28th inst. at the auditorium of the new high school building under the auspices of the local B.P.O. Elks No. 189. For years the Elks have been putting on minstrel shows and the year they are breaking a tradition of long standing to bring one of the greatest musical troupes of the continent to Pomona. The chorus was secured through the efforts of L. E. Behymer who was also responsible for bringing the Harry Lauder in recital here a few weeks ago.

THIEF SLITS PILLOW

Burglar Takes \$1200 from Under
Sleeping Man's Head

By a "Times" Staff Correspondent
PASADENA, Jan. 14.—Sitting in a room on which Harry Gleicher, 383 Kensington Place was sleeping a burglar this morning stole \$1200 from his hiding place and escaped. Pasadena police were informed today. According to Gleicher, he and his wife retired early last night. He placed his pocketbook inside the pillow. When the couple awoke the money and jewels were gone. There was a knife slit in the pillow. A thief had been robbed of \$1.

RICHARDSON TO PICK JUDGE

Governor Going to San Bernardino to Consider Candidates Seeking Late Jurist's Post

(EXCLUSIVE DISPATCH)
SAN BERNARDINO, Jan. 14.—Gov. Richardson is coming to San Bernardino to study at close range the applications of candidates for appointment to the Superior Court bench to succeed the late Judge Frank B. Daley. Five attorneys, one a former Superior Court jurist, are in the race for the appointment. They are Charles L. Allison of San Bernardino, M. O. Hart of Colton, Howard Burr of San Bernardino, Judge John L. Campbell of San Bernardino and Halsey W. Allen of Redlands.

Although mentioned as a candidate and supported by friends, Attorney Burr is not actively seeking the appointment and friends declared today that it is likely he would refuse the appointment if it were tendered him.

Gov. Richardson today declared he would come to the city within a few days. An appointment is expected before the end of the week.

Funeral services for the late Judge Daley were conducted this afternoon from the First Presbyterian Church, more than 2000 attending. Burial took place at the Masons and Rev. Alvah Grant Fenderson officiated. The mourners from all walks of life included a group of ladies from the city of Pasadena who came to pay tribute to the memory of the judge. The body was taken to the city of Pasadena where it was to be buried.

Burial was in the family plot at the Pioneer Cemetery. County officers were closed during the funeral hour and the flag on the courthouse was at half-mast throughout the day.

AUTOIST RACING
TRAIN KILLED

POMONA, Jan. 14.—Victory over the power of steam and steel of an eastbound Southern Pacific freight train was fatal to Edward Fisher, 1320 South Olive street, Los Angeles, shop salesman, today. After a collision with the freight train, Fisher was killed.

The train was crossing at 1:19 o'clock, morning. Fisher was unable to make the turn leading into Pomona and was fatally injured when the small sedan he was driving overturned. He died of internal hemorrhages at the Pomona Valley Hospital before he could be put upon the operating table.

Driving his automobile along the Valley Boulevard leading toward Pomona, Fisher took the race to the Second-street crossing. The train had a slight lead and he tried to pass it. At the last moment, the report turned in by police shows. So great was the speed of the little machine when it crossed the track that eyewitnesses declare it turned over three times.

The body of Fisher was picked up twenty-five feet from the derailed machine. Pieces of the car were scattered for yards, with nothing left of the chassis but two wheels.

The body is being held at the Todd & Reeves mortuary pending decision of the County Coroner.

MONROVIA WOMAN IS
HURT IN AUTO CRASH

(EXCLUSIVE DISPATCH)
MONROVIA, Jan. 14.—Mrs. Foss P. Collins of 520 Bonita avenue was injured seriously while her husband, 4-months-old baby and mother escaped with a few scratches when the touring car in which they were riding turned over and rolled over twice after being struck by another car driven by Mrs. Boyce of 812 Ninth avenue. Mrs. Collins was taken to the Monrovia Hospital, where it is reported she will recover.

RICH BEGGAR FREED
FROM PASADENA JAIL

By a "Times" Staff Correspondent
PASADENA, Jan. 14.—Ernest Singer, wealthy beggar who has been serving a 300-day sentence for vagrancy, and who engaged an attorney to file a \$20,000 libel suit against the city charging injuries he had been done by keeping him in jail over the Christmas holidays, was released today after paying \$100 of his bail. Singer, who was arrested last September, had been in the city for some time.

MORTON TO INSPECT
AVIATION STATION

By a "Times" Staff Correspondent
SANTA MONICA, Jan. 14.—Major Gen. Charles Morton, commanding general of the Ninth Corps Area, will be at Clover Aviation Field Thursday for an inspection, according to information received from Lieut. C. C. Mosley, the command of the local field. Preparations for the reception of the general are being made.

MEMBERS SOUGHT
KIWANIS LEADER

(EXCLUSIVE DISPATCH)
ORANGE, Jan. 14.—In an effort to bring the membership to the high point, the Villa Park farm center today launched a membership drive that will last through the week. With C. G. Lawrence as chairman, fifty members of the Kiwanis club of Orange, and a number of other members of the club, are working on the drive.

FIRE TROUPE'S DERRICK
ORANGE, Jan. 14.—The derrick of the Orange Community Fire Association, local concern now drilling in the prospective Orange field, was damaged by fire this morning when a quantity of crude oil flowing in a ditch near the structure caught fire.

Glass needles, the invention of a Middle-Western scientist, are used to cut living human or animal cells into two parts so that they can be studied under the lens of a microscope.

By a "Times" Staff Correspondent
SANTA MONICA, Jan. 14.—Thieves failed to gain entrance last night to the home of F. J. Carter, 219 Central avenue. The owner discovered an endeavor had been made to pry the lock from a rear door. The house was robbed several weeks ago and many valuable articles taken.

CANADIAN WAR VICTIM FINDS
\$50 IN FIFTY-YEAR-OLD BILLS
WHILE FELLING PEPPER TREE

(EXCLUSIVE DISPATCH)
VENTURA, Jan. 14.—Fortune at last smiled at least faintly on F. W. Barron, ex-Canadian soldier suffering with "trench feet," who is being assisted by the local Legion Auxiliary women, when he sought to be of service in cutting down an old pepper tree in the rear of the home of Rev. T. M. Patterson on Santa Clara street here.

As the tree crashed to the ground Barron saw a peculiar knot hole in one of the upper branches with a piece of decayed wood nailed across it. The tree had grown around part of the old board. As he pulled off the board a piece of decayed burlap dropped out along with a roll of bills.

Scarcely believing his eyes, Barron counted the greenbacks finding \$50. Mostly \$1 bills and all 1941 date. It is believed that the bills were hidden in the tree when it was but a few years old and forgotten. Rev. Patterson had donated the use of part of his back yard to the auxiliary and Legion to use to build the boy's little house. When he was tendered the money by Barron, the minister told him to keep it with his blessings and the hope he could find more, as no one would be more deserving.

As far as could be learned, no one is living here today who is aware of how the money came to be in the tree.

TAILOR SHOP MAN TELLS
STOCK GOES OF SLAYING
TO ROBBERS ON DESERTMerchandise Valued at
\$3000 Taken by Thieves at
Santa Monica

By a "Times" Staff Correspondent
SANTA MONICA, Jan. 14.—Thieves removed more than \$3000 worth of merchandise from the tailor shop of Harold Berlin, 714 Santa Monica Boulevard, some time during the night, according to police.

When the store was opened this morning it was discovered that most of the stock had been taken. The thieves had broken in through the back door. The store was closed for several days. The police are looking for the thieves.

Police discovered that the robbers had loaded Berlin's stock on an automobile. Stray garments were scattered about the floor of the building and several pieces had been dropped on the outside, officers said.

In these words Edward Hamill, 23 years of age, who last week walked into the San Francisco police station to give himself up, yesterday told of the killing of a chance acquaintance on the desert near Blythe on the night of November 24.

Sheriff Sam Ryan and the youthful prisoner arrived at the County Jail this noon from San Francisco, and left this evening for Blythe, where Hamill says he was shot. Although he expected to go direct from San Francisco to Blythe the Sheriff was forced to delay his trip because of a possible clue to the case in Sacramento.

Mr. Donald had been active in the church and community work of the Blythe. He leaves a widow and an adopted daughter in San Bernardino. He also leaves a daughter in Redlands. He came here with his family from San Diego four years ago. He had spent most of his life in the service of the Santa Fe Railroad.

SAYS HE HAS FAVORITE
RAZOR OF WASHINGTON

(EXCLUSIVE DISPATCH)
BRAWLEY, Jan. 14.—M. L. Maloy, an electrical worker here, owns what he asserts to be a razor once used by George Washington. The razor is a straight razor, and is said to be the one that Washington used to shave himself. Maloy claims to have found it in a box of old razors.

Maloy, an electrical worker here, owns what he asserts to be a razor once used by George Washington. The razor is a straight razor, and is said to be the one that Washington used to shave himself. Maloy claims to have found it in a box of old razors.

HOLTVILLE CHAMBER
ELECTS OFFICERS

(EXCLUSIVE DISPATCH)
HOLTVILLE, Jan. 14.—M. C. Blanchard, banker, has been elected president of the Holtsville Chamber of Commerce. Other officers elected are H. T. Jones, vice-president; H. T. Jones, secretary; and Dale Cooper, treasurer. The chamber was organized last year.

PRAWLEY ENCOURAGES
GRAPEFRUIT PLANTING

BRAWLEY, Jan. 14.—Brawley Chamber of Commerce directors are encouraging the planting of grapefruit in the north end of the valley by the local field. A committee of three experts has been named to supervise the planting of the trees until they come into bearing. It is expected this plan will prove popular with valley land owners.

Blanchard, banker, has been elected president of the Holtsville Chamber of Commerce. Other officers elected are H. T. Jones, vice-president; H. T. Jones, secretary; and Dale Cooper, treasurer. The chamber was organized last year.

SOUTHLAND VETERAN
DIES OF GAS EFFECTS

(EXCLUSIVE DISPATCH)
MONROVIA, Jan. 14.—Stuart Haley, well-known here and in Los Angeles, died in Erie, Pa., Saturday, of the effects of gas received in France while he was with the Twenty-seventh Division. Funeral services will be conducted at the Tefft Chapel, 17th and Broadway, N. Y., tomorrow evening. He will be buried in Cypress Hill cemetery, with full military honors.

Blanchard, banker, has been elected president of the Holtsville Chamber of Commerce. Other officers elected are H. T. Jones, vice-president; H. T. Jones, secretary; and Dale Cooper, treasurer. The chamber was organized last year.

FIRES AT WOMAN, ENDS LIFE

Carpenter in Fresno Station Tries to Kill Wife of
Another After Being Jilted

(BY A. P. NIGHT WIRE)

FRESNO, Jan. 14.—Walter Roucklux, 31 years of age, San Francisco carpenter, shot and killed himself in the waiting room of the Southern Pacific Station here yesterday afternoon after a shot from his pistol had missed Mrs. C. B. Shanklin, 36, of Fresno, with whom, it is alleged, he was infatuated.

Mrs. Shanklin was not injured, but the bullet from Roucklux's .33-caliber weapon tore the heel from her shoe. Roucklux died almost instantly.

The shooting occurred a few minutes after C. E. Shanklin, Fresno mail carrier, Mrs. Shanklin and Roucklux had arrived at the station. Roucklux, missing the Southern Pacific train he had intended taking to San Francisco at 4:20 o'clock.

Mrs. Shanklin told police she had known Roucklux since last July, and that he made constant love to her, wrote her letters which she showed to her husband, and attempted to induce her to leave her husband and go with him to San Francisco.

"He threatened to cut my heart out and to shoot me," she said, "if I did not go with him. He said she was trying to induce him to take a stage for San Francisco when he began shooting. Her husband had just left the waiting room when the shooting occurred.

Roucklux arrived here last Friday and went immediately to the Shanklin home, according to Mrs. Shanklin. He made repeated threats to take her life, she told officers.

Fresno police and railroad detectives declare Roucklux was infatuated with drink and jealousy. An inquest will be conducted this afternoon.

Mentone Rail
Agent Dies of
Heart Disease

(EXCLUSIVE DISPATCH)
REDLANDS, Jan. 14.—Heart disease caused the death of Frank Donald, Santa Fe agent at Mentone, near here, according to the coroner's inquest this morning. Donald, 47 years of age, died while at work yesterday. He was 72 years of age when he came to the station.

Mr. Donald had been active in the church and community work of the Blythe. He leaves a widow and an adopted daughter in San Bernardino. He also leaves a daughter in Redlands. He came here with his family from San Diego four years ago. He had spent most of his life in the service of the Santa Fe Railroad.

An Organization of Specialists

HORACE D. HITCHCOCK & Associates are organization and financing specialists, devoting their exclusive attention to the organization detail in launching new projects of merit and in assisting legitimate enterprises in their financing.

The organization work is in charge of the following specialists:

Julian P. Jones
An Attorney of over 30 years' experience on Los Angeles and the Southwest. Corporation Counsel for Hitchcock & Associates.

Jesse O. Cotton
An Organization Attorney of wide experience devoting his entire time to the interests of Horace D. Hitchcock & Associates.

The metropolis of Los Angeles has achieved world-wide fame, not only as a city of "heart's desire," but as an industrial community of commanding magnitude.

It is at present the largest city west of the Mississippi River, having developed during the last ten years into a veritable commercial giant.

Thousands of factories, plants and mercantile establishments make it throb with life and power which excite the admiration and astonishment of business men from all quarters of the globe. Every sunrise brings new hopes and plans, while every sunset makes a record of dreams shaped into reality.

Yet industrial Los Angeles is still very young—much younger than most of us dare conjecture.

Importance of New Capital

This vast commercial growth has been due in part to the influx of population and to the natural environments and resources for which the Queen City of the Southwest has long been noted.

But in addition to these there has been a large in-streaming

Don't let these few thoughts slip idly by. Make it a point today to begin the placement of a part of your investment funds in new concerns to do your part to keep Los Angeles growing.

Sign the coupon below so that new projects of merit may be placed before you for consideration. Don't hesitate in mailing that coupon. It does not obligate you in the least.

You will be agreeably surprised at the many splendid opportunities offered by these new investments. You will find a great variety, ranging from attractive "speculative" projects to conservative manufacturing, industrial, and mercantile enterprises.

Safety of Investment

For instance—we now have for investors a very high-grade investment that combines all the features of the "ideal" investment.

This security is the offering of a local substantial mortgage security company. It carries a yield of 8%, and it is absolutely

of fresh capital for commercial use. Without capital any industrial growth will stagnate and die. It is the life-blood of business that flows in the arteries of all commercial development.

Investors of vision only a few years ago saw the then possibilities that have proven to be profitable realities now.

Do we not owe much to the foresight, the confidence and the trust which earlier investors placed in the future of industrial Los Angeles?

If there were opportunities then—what of the opportunities now, today?

One has only to study the facts, and to consider that an industrial momentum of several years' accumulation is a mighty unswEEPing force that cannot be retarded in a few months or even in a few years.

Prosperous New Enterprises

Those enterprises which now enjoy a rightful prosperity, of enviable dimensions, began only a few years ago, many of them in the form of small, struggling concerns.

Today these same enterprises are enjoying the result of

safe—as safe as anything can be safe.

We are recommending this excellent 8% investment to you because it is safe—every dollar you invest will be backed by more than two dollars in income-producing real estate, which is the safest security behind any investment.

We are recommending this particular investment because it is “solid as a bank” and “better than a bond.” It is worthy of your immediate investigation. This mortgage security company is headed and actively managed by men of wide experience in banking and finance. As a financial security, here is one of sterling worth in every particular. Let us tell you more about this 8% investment. All details will be sent to you at your request.

Diversified Investments

We have many other types of investments to offer—manufacturing companies, realty companies, and varied industrial projects; also legitimate and attractive speculative issues.

We have no relation to any financing of any issues that are not offered in compliance with the State Corporate Securities Act.

steady, solid growth. This is true of practically every concern of any size in Los Angeles today. And the small enterprises of today will, with even more certainty, become the companions to big business here a few years hence.

Right now your dollars have the opportunity of a life time!

Making Your Dollars Count

Right now, while you read this page, there are hundreds of new and expanding concerns in and near Los Angeles that need your capital.

These concerns are able to offer you opportunities that could not be obtained anywhere else. Each one is free to grow and to prosper. Industrial advantages superior to what are at hand could hardly prove more attractive if they had been "made to order."

You may have been accustomed to think in terms of bonds and very conservative investments yielding a small per cent. True, these are desirable for safety and for small yield. But every Los Angeles investor owes it to himself to help, to foster, to encourage, the continued industrial growth of our prosperous

You, as an investor, are invited to investigate the merits of these new companies—choice opportunities that will appeal to you as unusual investments.

Sign the Coupon—Mail It

If you live in Los Angeles County, fill out the coupon below and mail it to our confidential address. This will be a simple way of enabling concerns who are our clients to present to you their propositions.

Tell your friends of this opportunity. Investigate for yourself. Your capital, no matter how small, should be invested "at home" in projects that are well organized, properly managed, and financially promising. Tear off that coupon now, before you forget it.

commonwealth.

For the Man Who Has "Retired"

You are now in a new land and you can find enjoyment and contentment in "playing" a small part of that "dollar store house" on some of the deserving new enterprises in Los Angeles. You can help "father" some of them and get a lot of genuine fun in seeing them grow up, and out and onward. We are all "boosters" here and all of us will get a harmless thrill of

to \$25,000. Call in person or write for com-
plete list and more detailed information.

MORTGAGE GUARANTEE COMPANY
OF CALIFORNIA
405 A. G. Bartlett Building
N. W. Corner 7th and Spring Sts.
LOS ANGELES

Five Significant Points

- 1.—The Guaranteed First Mortgage Certificates of the Mortgage Guarantee Company are legal investment for National, State and Savings Banks in California.
- 2.—They are regularly purchased by a large number of banks, insurance companies, and trust estates, and recognized as an investment of the highest type.
- 3.—They are exempt from State, County and Municipal taxes.
- 4.—They are non-fluctuating, free from market influences, and especially designed for legitimate investment purposes where safety is paramount.
- 5.—They are obtainable in any amount from \$100 to \$200,000 at par to yield 6%.

There are important reasons for the pre-eminent position held by these Certificates. Investigate. Call, write, or telephone for further information.

China Bankers

May Visit the United States

(EXCLUSIVE DISPATCH)
(Copyright, 1924, Public Ledger.)
PEKING, Jan. 14.—An invitation to visit the United States and "get acquainted" has been extended to Chinese bankers by Julian Arnold, American commercial attaché in Peking, and accepted in behalf of Chinese bankers by Dr. Wellington Koo, Minister for Foreign Affairs in the Chinese government. Mr. Arnold, who some time ago made a tour of the United States speaking on the subject of trade with China, extended the invitation at a luncheon to which a number of prominent American visiting business men were invited.

The Foreign Minister saw a big possible benefit from the proposed visit because Chinese banks, though they have become a clearing-house for business transactions within China, have in only a few cases established connections with acquired facilities for assisting or promoting foreign commerce.

Thirty-nine mines in the Transvaal produce nearly 9,000,000 ounces of gold a year.

33,000 New Straus Customers

These 98 bond issues were new loans—not renewals—and were, with few exceptions, construction loans. Erection of the buildings—a few of which are pictured here—created hundreds of millions of dollars in new wealth, gave employment to thousands of workmen, furnished a market for millions of tons of building materials and, in numberless other ways, added to the wealth of the nation. They are safeguarded under the STRAUS PLAN, and render a three-fold service:

1. *To the investor.* Through the STRAUS PLAN and Straus Service he is able to place sums of any amount, large or small, in securities of assured soundness yielding a fair and even liberal rate of interest.
2. *To the borrower.* The bondholder is not likely to prosper unless the borrower likewise prospers. We refuse to accept loans which do not carry with them every assurance, as developed by the most careful investigation, that the property will be successful and will have ample earning power, thus meeting both principal and interest on the bonds, and likewise assuring prosperity for the borrower.
3. *To the community.* Through the erection of new properties financed under the STRAUS PLAN, new housing is provided, additional facilities are gained for the conduct of business, property values are enhanced and civic progress is promoted.

We now have on hand for January investment a wide diversity of sound first mortgage serial bonds secured by properties similar in type to those here illustrated. The bonds are in denominations of \$1,000, \$500 and \$100. They yield 6 and 6½% net. We suggest that you call or write at once, so as to obtain just the bonds and maturities you most desire, and ask for

MARKET REVIEW

[EXCLUSIVE DISPATCH]

NEW YORK, Jan. 14.—The irregular downward reaction in the stock market today, in the course of which some of the shares which had risen most rapidly since December declined 2 to 4 per cent, have attracted the larger part of Wall street's attention; but the movement of the foreign exchanges has been such as to excite financial interest. The day's decline of 4 cents in the pound sterling has been the largest in the history of the most violent that has occurred this year; in the case of sterling, it has not been paralleled since

ment, what is at some times called "mob panic" may have seized on both the London and Paris exchange markets. With a British Labor Government expected to take power this week, and with French public finance just now in a state of extreme tension, the street wholly in the light of the falling franc, a somewhat panicky aspect of both markets is not surprising. The fluctuations and either when facts refute imaginations, or when other financiers conclude that the market is on the eve of tipping its scales to deluging and repurchasing any longer.

November 14, when a 4-cent break occurred on Baldwin's announcement that the company's earnings rate is now 10 cents below the figure reached that day and is lower than any price touched since the 1929 crash. The market, however, perhaps excited about interest on the exchange market, the franc's valuation went today below that of the Italian lira for the first time since 1929.

That a movement of capital out of France and England into the United States is on, prompted by the present situation, is not doubted by any well-informed quarters. The question on which opinion differs is whether this disquiet over British and French financial conditions represents sober conviction of excessive financiers or a more or less temporary unrest.

There are two seasons for thinking that the American market

The declines on today's market affected all active shares, losses of more than a point occurring in many railway stocks while a long list of industrials lost 1/2 to 3 points with some falling even further. On the basis of the averages the day's reaction canceled nearly all of the month's preceding gains.

With the kind of sympathetic movement which occasionally inspires all speculative markets simultaneously, wheat and cotton also fell, the former dropping 1/2 to 1 point in particular, reaching the lowest price since the middle of November.

Sharp Price Break
(BY A. P. NIGHT WIRE)
NEW YORK, Nov. 14.—The first sharp break in the stock market since the new upswing started in October, 1929, occurred after

heavy speculative selling, based on the belief that many stocks had been overbought resulted in reactions of 1 to nearly 8 points in the Dow Jones Industrial Average. The exchange of French exchange and reports of bitter opposition to the Mellon tax bill provided stimulus for an active general list.

Speculative pools, which have been active in many issues, particularly in the foreign exchange market, showed little disposition to actively support their favorites. This was due to the fact that the market on the part of professional traders who succeeded in touching off a number of stop-loss orders in all issues.

French francs broke 38 points to 4.27 cents, the lowest rate ever recorded for the franc in the United States. European speculative selling, but bounced back to 4.40 cents

short covering. Demand sterling dropped more than 3 cents to \$44.23 and Belgian francs more than 50 points to 200 francs to the dollar. The partial recovery later in the day was due to reports that the French franc, which was selling at a discount, was to be purchased in the purchase rate.

The sharpest fluctuation in the stock market took place in United States shares on reports that the United States Steel Corporation would maintain, and possibly increase its extra dividend at the directors' meeting next month. The price of the stock rose 10 points to 114 1/2 and the Credit Mobilier stock rose 10 points to 123 1/2. Lomes of Baldwin closed more than 30 points lower at 123 1/2.

At Stillebaker, American Can, Allied Chemical, Dupont, Corn Products, United States Industrial Alcohol, Hayes Wheel, Maco Truck, Stewart Warner, United States Rubber and many others.

Oils showed resistance during the week, but the season on reports of higher gasoline prices and a further advance in Pennsylvania.

Total stock sales, 1,114,000 shares. Twenty industries averaged \$5.72; net loss 1.51. High 19.50; low 2.76.

Railroads averaged \$4.57; net loss .84. High 19.24, \$6.51; low 79.53.

The City's Greatest Need

ARE you one of the many people who are overlooking the greatest of all the opportunities for cumulative profit in connection with the unparalleled growth of Los Angeles?

In the territory tributary to Los Angeles we have most of the raw materials used for manufacturing purposes. We have cotton, wool, leather, copper, iron. We have cheap power—hydro-electric, gas, and fuel oil—plenty of water, a good labor market, excellent transportation facilities by rail and water, and a climate that insures all-year working efficiency. In addition to all of which we have a pressing need for a greater payroll to support the rapidly mounting population—a need which has caused the Chamber of Commerce and business organizations generally, to inaugurate an intensive drive for more industries.

The situation is without a parallel. Right here and now, in the city of Los Angeles, are existing the greatest opportunities in the country for manufacturers to develop great industries, and for investors to participate in the soaring benefits. Those who act now will profit most.

Let us give you an interesting, concrete example. Indicate your interest by mailing us your name and address. No obligation.

OIL NEWS

BY ROBERT J. FRITZCHARD

Callender No. 3 well of the Union Oil Company, located a few hundred feet from the discovery well, Callender No. 1, started to flow yesterday while the crew was bailing for a water test, according to a report by officials of the company. Late yesterday it was decided to connect the flow pipes with the pump, and allow the well to flow, in an attempt to determine whether a shut-off had been effected.

Officials asserted last night that even if the shut-off is perfect, no attempt will be made to put the well on production at the present depth of 1822 feet. A water shut-off test was put on production from a second sand, 100 feet deeper than the first and in which the Callender No. 3 well was drilled. Officials report that it may be two or three weeks before the well is finally completed. It was cemented at 1815 feet, and a water shut-off test was bailing at 900 feet, that the well displayed a tendency to flow.

Officials of the General Petroleum Corporation report that the crew started drilling out the plug in Garden No. 1 yesterday, and made a casing test. A water shut-off test will be made today, it is reported, and if the shut-off proves successful, the crew will proceed to drill into the sand, it is said.

It was reported yesterday that the L. B. Chase well, located nine-tenths of a mile almost due west of the Callender No. 1 well, had come in, but officials of the company denied this. They asserted that the report was caused by a rupture of a hose with which the crew was circulating under pressure, several hundred barrels of oil in the attempt to extract tools stuck in the hole. When the hose broke, they report, a considerable quantity of oil was squirting up into the derrick, giving rise to the rumor that the well had come in.

Enter El Segundo

The reported discovery of oil-bearing sand in the wildcat well of the Pan-American Petroleum Corporation in the outskirts of El Segundo, is resulting in a considerable revival of interest in that area, according to reports from the field.

A deal is pending, to be consummated today, it is reported, where the Fortuna Oil Company is to acquire eighty acres located south-east of the Pan-American well, and is to begin drilling as soon as possible. According to reports, arrangements for the derrick to be laid on the ground next Monday. The acreage involved in the transaction is believed to be located on the structure, and is said to be the only large tract not already tied up.

It was rumored in El Segundo

Crude Goes Up

Crude-oil prices in Pennsylvania and Texas took a jump yesterday with the announcement of increases in the price of three grades of crude in Pennsylvania, and the general increase of Powell and Madsen crude in Texas.

Reports from Pittsburgh stated that an increase of 10 cents per barrel had been made in Pennsylvania grade oil in New York Transit Company's pipe lines, and in Bedford grade crude in National Transit Company's pipe lines, and in Corning grade oil in Buckeye Pipe Line Company's pipe lines. This increase affected the price of Pennsylvania and Bedford to \$3.75, and Corning oil to \$3.65.

The Humble Oil Company of Houston announced an increase in Mexico and Powell crude to \$1.40 per barrel. This places Mexico and Powell crude on a par with Mid-Continent crude.

H. R. Hughes Dead

Howard R. Hughes, president and founder of the Hughes Tool Company, dropped dead in his office in Houston, Tex., yesterday, according to telegraphic reports received last night. Mr. Hughes was 54 years of age and besides being one of the wealthiest men in Texas, was regarded as one of the most successful in his line of business, in the petroleum industry.

The Hughes Tool Company has its headquarters in Los Angeles, and is active in practically every oil field in the country.

Mr. Hughes was a brother of Maj. Rupert Hughes, noted author and screen writer.

Development is slow.

Decision as to the oil possibilities of the extension of the Santa Fe Springs field, west of the river, which has been expected almost daily for the past month, is still delayed, with no immediate prospect of definite results, according to operators interested in the field.

The Oakridge Oil Company, which has been regarded as the well most likely to get definite results first, is still trying to get a good sand has been encountered.

Two attempts have been made to cement off the water, without success, and the third attempt is now under way.

The M. & H. well, which was cemented more than three weeks ago and which officials of the M. & H. Oil Company reported would be drilled out about the 1st inst. is still idle. Field reports assert that financial difficulties are the reason for the lack of activity.

The Fardon and Vurpillat well, which has just completed a fishing job that lasted three months, is drilling ahead at 4145 feet, according to W. P. Vurpillat, and is said to be in sandy shale. According to this authority the next 100 feet should tell whether the well will be a success or a failure, and in so doing, should prove the possibilities of the surrounding district, including the M. & H. well.

The Burbank Oil Company well is standing cemented at 4174 feet. Besides these wells, there is practically no other activity, the Tri-color Oil Company, and the Bernard Oil Company, both of which have started wells, having suspended operations, pending the outcome of their neighbors' wells.

Spot News

Roy Collum, formerly connected with the State Mining Bureau in connection with the oil and gas division, has spotted the No. 1 well of the Moore Basin Oil Corporation near the abandoned Kramer well three miles north of Houston on the Santa Fe Railway, according to officials of the company. The new hole will be drilled 150 feet north of the old well, which is said to have encountered good showings, but was abandoned at 2435 feet, because of water trouble. However, it is fifteen miles west of Fort Worth, in San Bernardino county.

Opens Office Here

Martin Van Couvering, petroleum engineer, is opening office at 112 California Bank Building, Monday. He will be under the charge of A. L. Howell, it is reported.

MOTORIST ROBBED BY AUTO GANG

Car Forced to Curb and Two Board Machine as Others Follow

A quartet of bandits, cruising the streets in a large touring car yesterday afternoon overtook A. J. Beaudette of 3216 West Adams street near the intersection of Los Angeles and Orange streets.

They crowded the Beaudette machine into the curb, two of the bandits climbed into Beaudette's car, one placing himself beside the victim and the other in the rear seat. Both were armed.

They commanded Beaudette to "drive around."

The child, who had been under the care of Dr. Albert Allen, died in a few hours after having been in the hospital for some time.

The autopsy report, read at the inquest, indicated a small amount of poison in the system, but evidence also was presented tending to show the amount insufficient to cause death of a healthy person.

Testimony revealed that the child was suffering from pneumonia and had been in the hospital for some time.

The body of the child was buried in the Harbor View cemetery yesterday.

Whittaker in court ready for his trial.

Judge Shenk yesterday vacated an order declaring forfeited bail of \$3000 and recalled a bench warrant issued for the arrest of Norman T. Whittaker, charged with the murder of William L. Jackson.

The case had been set for the 4th inst., but Whittaker explained he was unable to appear because of illness.

Whittaker was released on his own recognizance.

BEACH GAS ROW GROWS WARMER

Arrest Seventeen Workers Making Extensions

City Drops Negotiations for Plant Purchase

Bad Faith Laid to Company; Fight Reaches Climax

By a "Times" Staff Correspondent

LONG BEACH, Jan. 14.—Here are today's developments on the now famous gas squabble that has grown out of this city's attempt to go into the retail gas business.

Police for the second time within twenty-four hours halted workmen employed by the Southern Counties Gas Company from continuing the laying of ten-inch gas mains in Long Beach streets, arresting seventeen men.

The City Council reached a decision to cease all negotiations with the gas company for the purchase by the city of its local plant and distributing lines for \$2,525,000.

The City Council announced its intention to rush work at once on a municipal gas plant and distributing system.

Orders were placed by the city for 170,000 worth of gas pipe, with more to follow.

The City Attorney was instructed to proceed at once with an injunction suit to restrain the Southern Counties Gas Company from removing work on the extension of its lines in Long Beach. The complaint was to be filed in Superior Court today.

Permits for extension work granted the gas company by the city recently have been rescinded. Charges were made by city officials that the gas company, after agreeing to sell its plant to the city for \$2,525,000, acted in bad faith by applying to the County Board of Supervisors for a franchise to lay gas mains along the coast.

Announcement was made by the Southern Counties Gas Company of a reduction of 15 cents per 1000 cubic feet for domestic gas, bringing the price from 45 cents to 30 cents per 1000 up to 15,000 feet. This makes a total reduction of 30 cents by the company since the gas fight was started.

PLANT IS PLANNED

After months of bickering and negotiating during which injunction suits, libel suits and recriminations have been hurled, the City Council today announced its decision to use the \$2,525,000 bond issue authorized for the construction of a municipal gas plant and distributing lines, thus entering into competition with the Southern Counties Gas Company.

All negotiations for the purchase of the company's plant and distributing lines had ceased completion and were halted only through an injunction suit brought against the company by the city.

Plans for Monument to Culture Disclosed

Project and Its Puffing Servant

The first grader at work on Normal Hill and first photo of plans of south entrance to new library.

Normal Hill was attacked yesterday by a monster puffing steam shovel supported by a regiment of thirteen large motor dump trucks, and the work of leveling the hill to the grade of Grand avenue for the site of the new \$1,500,000 central public library began.

It will continue without cessation for sixty days, when the steam shovels and the trucks will retire from the field and give way to the construction forces of the library building.

The grading work is being done by C. G. Willis and Son, who were awarded the contract for \$14,000.

Librarian Frank and members of the Board of Library Directors expressed themselves yesterday as delighted when ground was broken and a real start made toward the construction of the new library.

PARKING FORBIDDEN

During the grading work, the parking of vehicles will not be permitted on the south side of the new 17th street at Normal Hill, as there will be constant danger due to slides from the embankment.

NEW JUDGE WILL HAVE JOB READY

Calendar Prepared for Successor to the Late Oscar A. Trippett

A calendar for the new Federal judge to be named to succeed the late Judge Oscar A. Trippett was prepared yesterday by Judges Bledsoe and James. These cases were set for April, and running into June. Washington advice state that Judge Paul McCormick is to be named.

More than 500 cases, criminal and civil, were disposed of by the two judges yesterday. A number of cases that have been clogging the calendars for several years were ordered dismissed. Three of the pending old cases, involving an asserted misuse of the mails, were tentatively agreed on as to date of trial in Judge Bledsoe's court.

The first hearing will involve what was known as the Square Deal Syndicate, that had its headquarters in Long Beach, with the following defendants: Chris Nelson, Joseph Gendron, George E. Nickerson and Webster W. Bush. They were given another week to plead, but it was agreed that the trial should begin February 13.

This will be followed on February 18 by the trial of Joe B. Turner, charged with the murder of a woman, and E. N. Moore, representing the Joe B. Turner Oil Syndicate No. 2, which it is alleged took \$1,000,000 from investors.

On February 26 the case of the Elanville Pool Syndicate No. 1, with Wyatt L. Nix, Mr. and Mrs. Frank L. Gardner, James E. Chambers, Percy M. Raymond and E. Guy King, will be tried.

The case against P. A. Clow, A. P. Hathaway and James Lindsey, charged with violation of the postal laws in relation to the Bond of Honor scheme, was set for trial March 11.

NATURALIZATION RUSH SETTING RECORD HERE

There is an unprecedented rush on in the naturalization department of the United States District Court, and for the past month the declarations of intention have averaged more than twenty a day.

The rush is greater than in December, when more than 600 declarations were filed. Subjects of Great Britain.

SOVIET IN RUSSIA TO STAY

Capt. C. J. Lucy, Manufacturer, Says Only Danger to Party Is from Within Own Ranks

"The soviet government is in Russia to stay unless its leaders disagree among themselves," Capt. C. J. Lucy, local oil machinery manufacturer, said last night at a dinner given for him by M. H. Whittaker, Mr. Whittaker's home here. Capt. Lucy sketched the Russian situation, with which he is familiar. He traveled extensively in Russia some months ago, and a trade agreement with his firm was the first such to be made by the soviet government. Capt. Lucy is a member of Herbert Hoover's relief organization, having been in charge of transportation under Mr. Hoover in Belgium during the war.

The speaker said that two articles published recently in the Times had hit the nail on the head regarding the political situation.

LENIN STRADDLING

These had pointed out that the soviet regime was in two dangers: that Lenin might die or become incapacitated and the radical Trotsky, come into power, or that the radical wing of the Soviet party come into power and sweep Lenin aside.

"Lenin now takes the middle of the road," he explained. "Trotsky follows him, although he is naturally an ultra-radical, and Krasin, the other leader, is an extreme conservative. The ultra-radical party is still another element."

Capt. Lucy praised Mr. Hoover's work in Russia, which he said was his greatest accomplishment.

FOOD PLENTIFUL

"The Russians of all classes are grateful to America for its aid and this friendly feeling will be permanent," he said. "They very much want American capital and American engineers, and feel that with these they can train capable labor. There is plenty of food and

DEPRESSING OF TRACK IS SANCTIONED

Council Refuses Pacific Electric Plea for Bridge Over Wilshire Way

The City Council yesterday unanimously adopted the report of its Public Utilities Committee recommending that the Pacific Electric Railway Company depress its tracks at the Wilshire-Boulevard crossing between Carthay Center and Beverly Hills, and pending this work ordered the Pacific Electric to lower the grade of the tracks to present level of the boulevard and to install safety gates.

The Council also instructed the Board of Public Utilities to file with the California Railroad Commission notification of the city's action, so that the State Commission can apportion the cost of the track-depression work between the city and the railway company on a basis of benefits received.

The action of the Council yesterday was the city's first step toward the desire of the Pacific Electric to separate the grades at the Wilshire crossing by means of an overhead bridge over Wilshire Boulevard.

The Board of Public Works and the Council unanimously supported the project of J. Harvey McCarthy and others against the bridging of Wilshire as perpetually damaging the beauty of Wilshire Boulevard and preventing its development into a 100-foot scenic boulevard from Westlake Park to the coast.

Objections to the plan, the commission stated, are based on its belief that the white lines are not really changing existing conditions, but are merely a device to halt the flow of children who assume all vehicles will stop; that the ordinance is in fact a traffic device to halt it does not specify the speed in passing across the line.

Recommendations stated that the primary consideration is that all vehicles should cross the same in a cautious manner during the time school children are crossing streets, rather than that thousands of vehicles should be stopped unnecessarily and a few fined for violating the ordinance.

The commission suggests that the white lines be abolished; that "school crossings" be located only at regular street intersections and that an electric sign be suspended in the middle of the street above such crossing; that a light signal be installed so that it can be turned on at 7:15 a.m., and off about 9 a.m., and on at times during the day at the discretion of school authorities when it is needed.

SHOPLIFTER TO GET JAIL AFTER THIS

Police Judge to War on Store Theft; Says Fines Paid Too Readily

Convinced that shoplifting has become an organized business in Los Angeles, Police Judge Pope yesterday announced that hereafter he will impose extreme penalties for those appearing in his court charged with this offense. Judge Pope said that 1000 persons, mostly women, were arrested on this charge during 1923 and that the number had been steadily increasing during recent months.

Most of the offenders are said to be well-dressed and to have good financial backing. Usually they pay the fines assessed without comment, although the fine frequently reached \$100. Often the defendants take the necessary cash from a well-filled purse, but sometimes they call up their "business manager," who brings in the money.

Judge Pope said that he plans to impose jail sentences in almost every case in the hope of stopping further increase.

LIBRARY SITE WORK BEGINS

Steam Shovel Attacks Cleared Ground to Level Area to Grade of Grand Avenue

Normal Hill was attacked yesterday by a monster puffing steam shovel supported by a regiment of thirteen large motor dump trucks, and the work of leveling the hill to the grade of Grand avenue for the site of the new \$1,500,000 central public library began.

It will continue without cessation for sixty days, when the steam shovels and the trucks will retire from the field and give way to the construction forces of the library building.

The grading work is being done by C. G. Willis and Son, who were awarded the contract for \$14,000.

BACK ABOLITION OF SCHOOL STOP

Education Board Indorses Traffic Body Plan

Unnecessary Delay Seen in Signal Plan

The Board of Education today joined with the Traffic Commission last night in requesting the City Council to repeal the school-stop ordinance and substitute traffic regulations suggested by the commission.

The ordinance requires all vehicles to come to a stop at designated crossing places, and that, between the hours of 7:30 a.m. and 4:30 p.m. The crossings are marked with white lines, and on to boulevard-stop warnings.

Objections to the plan, the commission stated, are based on its belief that the white lines are not really changing existing conditions, but are merely a device to halt the flow of children who assume all vehicles will stop; that the ordinance is in fact a traffic device to halt it does not specify the speed in passing across the line.

Recommendations stated that the primary consideration is that all vehicles should cross the same in a cautious manner during the time school children are crossing streets, rather than that thousands of vehicles should be stopped unnecessarily and a few fined for violating the ordinance.

The commission suggests that the white lines be abolished; that "school crossings" be located only at regular street intersections and that an electric sign be suspended in the middle of the street above such crossing; that a light signal be installed so that it can be turned on at 7:15 a.m., and off about 9 a.m., and on at times during the day at the discretion of school authorities when it is needed.

THEATER OPENS IN MARCH

A. L. Erlanger Soon to Announce First Attraction to Appear at Billmore Playhouse

As the result of an extended telephone conversation with Joe Topitsky in Los Angeles and A. L. Erlanger in New York, Sunday afternoon, the date has been set for the opening of the Los Angeles Billmore Theater. A telegram from the Manhattan theater magnate to Edward D. Smith, his Pacific Coast representative, received yesterday, fixes March 3 as the day for the formal dedication of the structure on the southeast corner of Fifth street and Grand avenue.

The particular entertainment has not been selected, but Mr. Erlanger is weighing the merits of a number of offerings and has promised an early decision. His communication makes it clear that he regards the choice of an opening attraction for the new theater as a matter of extreme importance.

TO BE PLAYHOUSE

The Billmore Theater is the fruit of Mr. Topitsky's long-held belief that Los Angeles would welcome a theater devoted to the presentation of only the highest class of touring attractions. He succeeded in enticing Mr. Erlanger with his own savings, and the two became partners in the enterprise. It was about nine months ago that the corporation was formed, and the new playhouse was laid.

The location of the playhouse was a selection of Mr. Erlanger. Having had to do with the theater or concert or nearly 300 theaters—the Billmore will be the one hundred and eighty-third in the world to come to certain definite conclusions with regard to the value of the accessibility and the environment of a theater site.

NO VERDICT IN DEATH OF BABY GIRL

Coroner's Jury Refuses to Fix Blame at Inquest on Masako Sanjeto

Declaring the evidence too intangible as a basis for an opinion on the mysterious death of Masako Sanjeto, a Japanese baby, at Los Angeles, the coroner's jury refused to bring in a verdict at the inquest at the harbor yesterday.

The child, who had been under the care of Dr. Albert Allen, died in a few hours after having been in the hospital for some time.

The autopsy report, read at the inquest, indicated a small amount of poison in the system, but evidence also was presented tending to show the amount insufficient to cause death of a healthy person.

Testimony revealed that the child was suffering from pneumonia and had been in the hospital for some time.

The body of the child was buried in the Harbor View cemetery yesterday.

WHITTAKER IN COURT READY FOR HIS TRIAL

Judge Shenk yesterday vacated an order declaring forfeited bail of \$3000 and recalled a bench warrant issued for the arrest of Norman T. Whittaker, charged with the murder of William L. Jackson.

The case had been set for the 4th inst., but Whittaker explained he was unable to appear because of illness.

Whittaker was released on his own recognizance.

TO TAG BUREAU STORMED

Oil Machine Shuts Crowds Through Doors As Piles of New Plates Diminish

(Illustration on Picture Page)

More than 500 drivers of automobiles in and around Los Angeles yesterday morning, when the State Motor Vehicle Department opened its new tagging bureau, stormed the building, and took the matter of purchasing a number for the coming year into their own hands.

The machine which was brought to Los Angeles had been used in the last San Francisco election, when 100 of them had been employed, which proved so successful that many more were ordered. The device is deemed to be fool-proof and virtually immune to tampering.

Each one of its actions is by a series of electric devices, assuring against tampering.

Registrars of Voters D. B. Lyons was present at the demonstration and announced his satisfaction with the machine. He said that he would recommend to the board that the machine be installed for the next election. There are at present 1900 precincts in the county and the matter of counting the ballots necessitates the employment of thousands of persons and the expenditure of hundreds of thousands of dollars, the total of which, according to Mr. Lyons, could be cut more than half by the purchase of the machine.

Mr. Lyons stated to

Generals to be Guests at Dinner Friday

PLEADS NOT GUILTY
Vernon Dutch, 28 years of age, yesterday entered a plea of not guilty to a charge of assault with intent to commit murder when he was arraigned before Superior Judge Crall. His trial was set for March 6. Dutch is accused of having shot Harold Hall, 24, of 1000 West Sixth street, following a quarrel between the two men at Hall's apartment.

DANCE MUSIC IS FEATURE OF KHJ

From Park Orchestra Plays for Radioland.

"Times" Concert Given on "Silent Monday"

Just Conners and Miss Toft in Popular Songs

The silent program of "Silent Monday" broadcast by The Times was the notable session which featured Carole Stevens and the orchestra from Ocean Park. The former home of the famous orchestra of musicians, was destroyed in the recent fire, and the new building, which has been built on the site, is now being used for the purpose of a dance hall.

The organization has been formed, however, and with the aid of the orchestra, the new building is now playing for the purpose of a dance hall.

The orchestra, which was led by Carole Stevens, was a very popular one, and the program was a very successful one.

The orchestra, which was led by Carole Stevens, was a very popular one, and the program was a very successful one.

Excursion Fare Cut Announced by Espee Road

The Southern Pacific Company will place in effect on the 15th inst. from Montana, the 35th from Idaho and Oregon, and the 31st from Utah, midwinter excursion fares. These will be granted in accordance with special permission from the Interstate Commerce Commission authorizing excursion fares from Ogden, Utah, and points north to Los Angeles, according to announcement by F. S. McGinnis, assistant passenger traffic manager of the Southern Pacific.

The authority of the commission permits the Southern Pacific to place in effect a round-trip fare from Ogden of \$50 and the same round-trip fare from Salt Lake City by way of the Western Pacific Railroad, Sacramento, Stockton or San Francisco by way of the Southern Pacific.

Proportionately low fares from Ogden to Los Angeles will also be allowed from stations on the Oregon Short Line in Idaho, Utah, Oregon and Montana when passengers applying present evidence of having purchased transportation to Ogden or Salt Lake City and return.

Tickets issued under this special permit will be good until April 1.

RAIL DELAYS DENIED

Espee of Mexico is Continuing Mexican-Tieup Run

Word received today from H. R. Titcomb, president of the Southern Pacific of Mexico, denies rumors to the effect that operation of the lines between Mazatlan and Tepic have been suspended. Titcomb stated that the Southern Pacific of Mexico has continued operation without interruption with the exception of four days, December 16 to 19, 1923, and this was at the request of the Mexican military authorities, who used equipment and trains for military purposes in that district against the rebel army.

Construction work, according to Titcomb, has at no time been interfered with. About 225 men, 400 mules and several steam shovels are busily engaged in rushing the line, which when completed will furnish the Pacific Coast a direct route to Mexico City.

WHERE TAX DOLLAR FOR YEAR WENT

Bond Payments, Police and Engineering Departments Took Major Share

Los Angeles taxpayers learned yesterday from the annual report of City Auditor Myers where each dollar of city taxes paid during the fiscal year which ended June 30 last went. The tax dollar was apportioned among the various city departments as follows: Engineering department, 19.3 cents; police department, 18.4; bond redemption and interest, 18.4; fire department, 12.4; electrical department, 3.5; building inspector, 2; library, 2.2; health department, 2.1; parks and playgrounds, 2.5; permanent improvement, 2.9; special funds, 6.7; all other departments, 5.6—total, \$1.

The general Los Angeles tax rate for the fiscal year which closed on June 30, last, was \$1.55 on each \$100 property valuation, and of this \$1.55 the general fund received for government departments and purposes \$1.14, the library 6 cents, the public improvement fund for permanent improvements of general benefit received 6 cents, and 30 cents was devoted to paying interest and sinking fund charges on municipal bonds.

ORDERED TO PRISON

Hawaiian of Royal Blood Given Sentence for Theft

William Kaaohikalo, a Hawaiian, will be on his way today to join the "royal colony" at the State penitentiary at San Quentin. Kaaohikalo, through whose veins the blood of royalty is said to flow, pleaded guilty to a charge of larceny of the property of Judge Crall of the Superior Court yesterday, waived time and was sentenced to from one to ten years in prison. He was accused of having taken clothes valued at \$500 from the home of Frank Mayo, screen actor, at 1807 North Highland avenue.

TO MAKE COSMETICS

Corporation to Erect Laboratory Here in Short Time

The Form-O-Youth Laboratories, Inc., manufacturers of cosmetics, will soon start manufacturing beauty preparations in Los Angeles. It was announced yesterday. Plans are now under way for the erection of a modern laboratory. A careful survey is being made of some of the largest laboratories in this country and Europe with the idea of incorporating the best features of each in the erection of the local plant.

Officers of the corporation are Arthur A. Ash, president; Dr. Eugene G. Steel, vice-president and general manager; Edward E. Ash, secretary-treasurer. General offices are in the Seventh-and-Hill building.

—a beautiful Novelty weave—and a very fine Corduroy—Attractive patterns in many different colors—Full 33 inches wide—at the much less than regular price of \$1.45 yd.—Wednesday (not today.)

Good Gas Heat—A Vital Need

A Message to Architects, Builders, Contractors.
—and Every Man Who Has a Home.

THE countless advantages of having instant, odorless warmth always at their command have led thousands of present home-owners to buy Welsbach Heaters.

No greater regard for the comfort of future tenants and owners can be shown on the part of architects, builders and contractors than in specifying the permanent installation of Welsbach Heaters. The healthful qualities of good gas heat when coupled with their efficient, economical service result in solid comfort and real fireplace enjoyment.

Welsbach
GAS HEATERS

"THE MOST HEAT FOR THE LEAST MONEY"

For true, intrinsic value; for a wide choice of attractive, appropriate models; for unparalleled, life-long service, you will find Welsbach Heaters the final word in home heating perfection. Welsbach Heaters are equipped with every feature that assures maximum heat production and greatest economy.

A self-lighter, an exclusive Welsbach advantage, does away with the need for matches. A metal back prevents waste by reflecting all the warmth straight into the room. There is no trouble, no smoke, no ashes. Just solid comfort from the moment you light the gas.

Let us send you our illustrated booklet, describing the complete Welsbach Line.

San Diego Welcomes You

Arrange today to take this delightful trip down the coast to a delightful city.

Come prepared to spend a week, a month or the entire winter. There's much to see and much to do in San Diego all the time. Of equal importance, you will find splendid, reasonably priced accommodations in a hundred or more hotels and a like number of apartment houses. Rentals for furnished bungalows, etc., also, are surprisingly moderate.

Each day will be one of joyful anticipation, because the sparkling, exhilarating air will lure you out of doors. Visits to Point Loma, the missions, beautiful Balboa Park, where each afternoon you may hear a concert at the great open-air pipe organ, the mountains, seashore, and to Tijuana, are suggestive of the many pleasant and interesting trips for which San Diego is the starting point.

You can come by Santa Fe Railway, by Admiral Line or Los Angeles Steamship Company, or by automobile over a highway skirting the ocean for 70 miles, and paved all the way.

If you cannot start today, send the coupon for the fascinating story of

San Diego California

SOCIETY

BY CORA YOUNG

Miss Maurice Dyer was hostess at an elaborately appointed luncheon party at the Miramar Hotel in Santa Monica on Saturday, when she entertained in honor of Mrs. Elena Gualt and Mrs. Madge Healy, granddaughter of Gen. Sam Houston, first Governor of Texas.

The tables were laid with rare old lace cloths and daintily adorned with flowers of pastel shades. Forty guests graced the occasion, including notable figures in the social and musical life of Southern California.

Reception and Dance
Miss Mary McDonnell is entertaining with a reception and dance tonight at her home on Wilcox street in compliment to her guests.

Bridge Luncheon
This afternoon at the Ambassador Hotel Mrs. E. J. Hibbard of Whitley Heights is entertaining with a bridge luncheon as a voyage courtesy to Mrs. William Henry Cline, who with Mr. Cline is leaving on February 14 for a trip abroad.

Welcome Home
This evening at the Los Angeles Athletic Club Mr. and Mrs. Ervin P. Werner are giving a delightful arranged dinner-dance in compliment to Mrs. Willoughby Rodman, whose return from Europe is the inspiration for many smart social courtesies.

Married
At the home of Mr. and Mrs. Charles Anderson on Friday evening Miss Esther H. Magenty became the bride of Mr. Oscar E. Anderson, Rev. James A. Francis reading the service. The bride wore a beautiful French gown, her veil fastened with a wreath of orange blossoms. Miss Hazel Zohl of Minneapolis, in an attractive frock

of orange georgette, was maid of honor, and Mr. Donald Jones of Hollywood was best man. Following the wedding supper the bride and bridegroom left for a short trip, after which they will make their home in Los Angeles.

For Bride-to-Be
Among the pre-nuptial entertainments for Miss Virginia Holtzclaw was the beautiful party given by Mrs. W. J. Brennan and Miss Laura SeNour at the home of the latter Thursday afternoon.

Anniversary Tonight
Tonight will be anniversary night in the Ambassador Cocoonat Grove in celebration of the third birthday of the hotel. Entertainment features and decorations have been planned. Entertaining on this evening are Mr. R. C. Dunn, party of four; Mr. J. Hirsch and party; Mr. Sam Wolf, party of six; Mr. and Mrs. Earle Anthony, party of four; Mr. Georges Young, party of eight; Mr. Leo Youngworth, party of six; Mr. G. Berkson.

Engagement Announced
The engagement of Miss Florence L. Penhall to Mr. Howard R.

Freeman was announced recently at the annual party of the Rho chapter of the Theta Sigma Phi Sorority at the home of Miss Katherine Diehl in Hollywood.

Freeman
Miss Penhall is the daughter of Mr. and Mrs. A. W. Penhall, Bronson avenue, Hollywood. The date for the wedding is not announced but will probably take place in the early spring.

Mah Jongg and Bridge
Tomorrow afternoon Mrs. Sayre Macmillan is giving a mah-jongg and bridge party for Miss Alice Hicks who will leave Sunday with her sister, Mrs. Robert Frank Groom, for Washington, D. C., where they will be house guests of Mrs. John Dwight. Before returning they will go to New York for a visit with relatives and friends.

Circus Night
The Hotel Maryland will be the setting for many unique entertainments this winter and the first of these will be Circus Night on Saturday evening.

The affair will take the form of a dinner and ball. Many features of the round tent will be presented in the dining-room which will be entered through a tent-like door. There will be a dignified ringmaster, side shows and many other interesting features, including peanuts and red lemonade.

At Luncheon
Numerous luncheon parties are being formed for the open luncheon and lecture entertainment which is to take place at Sunset Canyon Country Club tomorrow.

Marriage Announcement
Mrs. Orah L. Baker announces the marriage of her daughter, Miss Doris Pearl Jones, to Mr. Wilbur C. Diamond, which was celebrated Saturday morning in the Mount Hollywood Congregational Church, Rev. E. P. Ryland reading the service. After the wedding breakfast at the home of the bride's mother, Mr. and Mrs. Diamond left for a brief honeymoon trip and on their return will make their home in this city.

Informal Party
Miss Dorothy Sills entertained Saturday afternoon with a delightful informal party in honor of her classmates of the Hollywood School for Girls. The guests included Virginia White, Katherine Toberman, Peggy Johnston, Dorothy Irving, Harlene Carpenter, Helen Armstrong, Ruth Spendrup and Marjorie Kendall.

Called East
Mrs. Thomas J. Okey, well known as the president of the Lark Ellen Board of Directors, has been called East by the serious illness of her son and is obliged to cancel all her social engagements.

ART LEADERS TOIL FOR SILVER SHEET
The influx of leaders of other arts into motion pictures seems to reach its height when a single production engages the services of one of America's foremost musical composers, poet and poster artist.

The musical background of "The Thief of Bagdad" is a symphony written by Mortimer Wilson, whose New Orleans prize overture placed him in the front rank of American composers. Wilson's published works on orchestral technique and instrumentation are the basis for degrees in leading musical conservatories of this country.

In titling this picture, Douglas Fairbanks, wishing to preserve the fantastic spirit of the story, sought the assistance of George Sterling, the poet. While England has long looked upon Sterling as America's greatest exponent of poetry, it is only in the last few years that he has come into his own at home. The lyrical quality and depth of expression of his work is unexcelled.

Even the posters that will announce "The Thief of Bagdad" strike a new note in advertising art. They are by Willy Pogany, one of our best contemporary artists and illustrators.

Now—No More Ironing Trouble!

TROUBLE in an electric iron comes from one of these sources: "Burning out of the heating element," faulty cord or connecting plugs, or in the pins connecting the heating element with the cord.

Dover-DOMANCO is the first and only iron to have a heating unit that will not burn out. If it ever should, a complete new 5-lb. heating unit goes to you free at once.

Cord trouble has been eliminated by the Dover exclusive Veriflex double-life cord. No other iron has this cord. Connector short-circuits are rare because Dover is the only iron that has rugged, rigid, pure nickel connector pins, that do not wear out.

Dover-DOMANCO will outwear, outlast any other electric iron at any price. And it costs but \$5.

Diet and Health

By Lulu Hunt Peters, M.D.

DAILY FOUNDATION REDUCING DIET—NO

Yesterday I told you the importance of supplying in your reducing diet of 1500 C. a day, those foods which will give you vitamins, mineral elements, proteins and part of your energy foods. Otherwise you will reduce your strength and health as well as your fat. You must always remember that the lost weight must come from your excess fat only.

If you are very active, and especially if you have a large frame, you can probably reduce one to two pounds a week on 1500 C. daily, or even more. If you do not want to reduce so rapidly as one or two pounds a week, you can have a more liberal diet.

If you are overweight it is a great deal better for you to reduce, even though you reduce only on-half pound a week, than to maintain your present weight or to continue to gain, as you will probably do.

DIETETIC SINS

Most of us who are overweight have some particular dietetic sin. Excessive bread and butter, candy and sweet desserts are the most common of these sins. Which is yours?

Perhaps you will lose weight without paying any particular attention to calories if you cut down markedly on these articles of food. But do not think that you can cut these down markedly and consume enormous amounts of the less fattening foods, and still lose weight, because, as I told you in the yesterday's paper, there is no food that is not fattening if it happens to be more than the system needs.

I began, in yesterday's paper, to give you part of the foundation diet which you must have daily: First: 50 to 100 C. (one-half to one pound) of watery vegetables, part raw, such as lettuce, spinach, etc. Second: 10 C. (approximately one-half pound) of the more solid vegetables, part raw, such as carrots, beets, etc. Third: 200 C. of fruit. Fruit and vegetables will furnish a large share of the vitamins and mineral elements and some carbohydrates or energy foods.

Fruits and vegetables are more or less similar foods, and are therefore interchangeable, so if you cannot get one, take more of the other. Now to go on with the foundation diet:

Fourth: Every day you should have at least one pint of skim milk or buttermilk. That will amount to

150 C. (10 C. is the amount which about 10 C. of protein, 10 C. of fat and 10 C. of carbohydrates will give you. If you prefer whole milk, you have to count it as a unit of C. to the 100 C. but it will give you only 100 C. of complete protein, 10 C. of fat, and 10 C. of carbohydrates.

Fifth: I want you to have two average-sized potatoes, one of which should be baked in its skin, and one of which should be boiled in its skin. These two potatoes should be eaten with a little butter or oil, and a little salt. This will give you 100 C. of complete protein, 10 C. of fat, and 10 C. of carbohydrates.

Sixth: You can get this in a large variety of ways. You can eat two average-sized potatoes, one of which should be baked in its skin, and one of which should be boiled in its skin. These two potatoes should be eaten with a little butter or oil, and a little salt. This will give you 100 C. of complete protein, 10 C. of fat, and 10 C. of carbohydrates.

Seventh: Protein. You must have about 100 C. more of protein than you need for the maintenance of your body. This will give you 100 C. of complete protein, 10 C. of fat, and 10 C. of carbohydrates.

Tomorrow: Distribution of the diet. Reducing diet and how to eat it.

Do not forget! Every day you should have at least one pint of skim milk or buttermilk. That will amount to

150 C. (10 C. is the amount which about 10 C. of protein, 10 C. of fat and 10 C. of carbohydrates will give you. If you prefer whole milk, you have to count it as a unit of C. to the 100 C. but it will give you only 100 C. of complete protein, 10 C. of fat, and 10 C. of carbohydrates.

Bread Week
January 13 to 20CRIME SERIES
PLANS FOILED"Robbers' Nest" Raids Are
Conducted by PoliceTen Suspects Arrested on
Suspicion ChargesOfficers Declare Many Bank
Hold-ups Thwarted

As a result of the arrest Sunday night and yesterday morning of ten bandit suspects in raids on an asserted "robbers' nest" at Fifth and Fremont streets, police declared they had frustrated a long series of crimes planned by the band.

The last two members of the band were rounded up yesterday morning by a squad of police headed by Acting Assistant Captain Cato and Detective Lieutenant Cahill. They are: Charles Wack, 34 years of age, and Fred Robb, 35. The others held are Harry Allgren, 33; Norman Allgren, 33; Roy Taylor, alias "Red" Taylor, 34; Charles Moore, 33; Howard E. Barnett, 33; J. C. Taylor, 33, and Charles Tuck, 33. The name of the tenth suspect is being withheld by the police. All are charged with suspicion of robbery.

It is declared by the police that the band planned to rob the vault of the Citizens State Bank of La Habra of \$75,000 kept there. The band planned to cut through the steel walls of the vault with an acetylene torch, police said.

A number of other daring hold-ups and robberies were also planned by the suspects, according to police investigators. The plot to rob the bank at La Habra had been known to police for some time, it was stated, and the band was to be broken up.

All dinner sets 25% off. A large variety of 25-piece, 37-piece and 53-piece sets. The set illustrated, a fine 25-piece set for four people, is now offered at the extra special price of \$6.85.

MERCHANT BANQUET PLANS

Business Men to be Speakers at Dinner 28th inst.;
Reservations Set New Record

With John G. Mott presiding as toastmaster, Los Angeles business men will give the program at the annual banquet of the Merchants' and Manufacturers' Association at the Biltmore Hotel on the evening of the 28th inst.

"Why Los Angeles is the industrial white spot of America" is the subject of the program, and talks will be made by men selected as representing different elements of the city's life. According to Secretary Zehandelaar, speakers will be Dean William McCormack, representing the clergy; J. A. Graves, banking interests; H. E. McKee, business interests; and James W. Woods, hotels. There will be other industries represented.

Reservations made for the banquet to date have surpassed demands ever made before on the Merchants' and Manufacturers' Association in the past. Already it is necessary, Zehandelaar stated, to plan for overflow accommodations in ballrooms around the ballroom where the banquet is to be held.

Many tables have been reserved by firms for their executives. Intention was to allow the assembled guests to carry it through and arrest them on the spot.

FIND PAWN TICKETS
At the last minute, however, Chief of Police Vollmer ordered that the men be rounded up where the men were arrested police found a large number of pawn tickets. These, according to the detectives, were for articles stolen by members of the band. A small amount of jewelry was also found in the rooms occupied by the suspects and efforts are now being made to have these identified. It is believed that when this is done the band will be shown to have been implicated in many recent robberies here.

EAST TAKES ITS LESSON FROM WEST
"Bread Week" Address Shows Cooking by Electricity is Spreading

"Cellularly" speaking, the electric East is taking a new lease on life and is learning to cook with electricity, thanks to the example set by the housewives and bakers of Southern California, according to John Hartley, secretary of the Retail Bakers' Association of America, who spoke at the Bread Week banquet of the Los Angeles Electric Club yesterday at the Biltmore.

"I don't know who put the east in yeast, but Southern California seems to be putting the yeast in the East," said Mr. Hartley. "As a result the East is rising and may one day get into a clam with our Southernland. Here is a toast to Toast, the American Breakfast. Long may it wave!"

Mr. Hartley pointed to the fact that Southern California bakers sell more bread, pies and cakes than the bakers of any other section of the same area in the United States, and that the wages paid in the baking industry of the Southland last year amounted to \$12,869,099. In New England, he said, only 48 per cent of the bread consumed is bakers' bread, compared to 88 per cent in Southern California.

Other speakers were: Dr. H. E. Barnard, secretary of the American Institute of Baking, and Dr. R. E. Lee, director of applied research of the Fleischman Yeast Company. Dr. Lee thanked the members of the electrical industry for their co-operation in helping to make the baking industry more popular and more efficient.

Healthy Plans
Cold tea or milk will make plants blossom in the wintertime. Four or five naps in the dirt, close to the roots, will also make sturdier plants.

Answers to Food Questions

Answers to readers' questions regarding diet will be given by William Stuart Davis, food specialist, writer and lecturer on scientific dieting, in a column in this paper. Questions should be accompanied by a self-addressed, stamped envelope as only those of interest will be answered in this column. Every effort will be made to answer questions promptly but no guarantee can be made that all questions will be answered.

TEA AND COFFEE
Omit tea and coffee absolutely and advise the young man to exercise well every day and to allow himself plenty of fresh air. If his circulation is good he can soon accustom himself to working or studying beside an open window. This must be done carefully however and only after his diet has been satisfactorily adjusted. Find out if he is of normal weight for his height and age and govern his meals accordingly.

I have read your recipes for Vassar fudge and others calling for dipping chocolate and wish to ask where I can obtain them. I have tried for years and have never been successful. Mrs. E. H. B. Dipping or coating chocolate is obtained from a commercial confectionery. There are also several brands of sweet chocolate on the market that are specially good for dipping. Be sure to purchase a good grade and you may wish to buy both the sweetened and the plain varieties. I suggest that you visit your public library. Dipping chocolate is such a delicate operation that one really needs full directions.

BETTER WEST ADAMS MEETING IS PLANNED
Plans for improving the West Adams district west of Western avenue are being made by the newly-organized Greater West Adams Improvement Association, tentative organization of which was made last week. At a mass meeting in the near future of property owners and business men of the district, officials will be elected. Some of the projects under consideration are: repaving of West Adams from Montclair Drive to the intersection of Washington and Adams; ornamental lighting over the same area; improvement of the drainage system for intersecting streets; and establishment of a community newspaper.

STATE REUNIONS
Illinois and Iowa Plan Gatherings for February
Two state reunion picnics will be conducted in Los Angeles during the month of February. Former residents of Illinois residing in Southern California will gather for their reunion on February 12, Lincoln's Birthday, at Bynum Grove Park. Iowans will assemble at Lincoln Park on February 22, Washington's Birthday.

Federal System of Bakeries
Federal toast is most easily obtained at the following places: Grand Central Market, 3rd and Broadway; Standard Public Market, Wilshire and Western.

IDEAL Certified Milk Purest and Best.

Our line of Electric Toasters, embracing all standard makes, that turn the bread without touching, enables you to make toast quickly, easily and conveniently right at the table.

Visit our store this week and see our Special Demonstration for Bread Week of "Making Toast Electrically."

Make Toast Your Breakfast Food but—"Make it Electrically"
Just as dieticians and medical authorities recognize and bakers recommend toast as the best way of eating bread, so do we recognize the fact that preparing it electrically is the best way of doing so.

PROGRESS

—Over a quarter of a century ago the Davis Perfection Bakeries Company established themselves in this community, which, at the time, numbered less than one hundred thousand souls.

—Today, when Los Angeles numbers its population in excess of a million, the Davis Perfection Bakeries continue to add materially to its tens of thousands of friends and patrons, through the perpetuation of its policy, to produce only those products which are recognized as BEST.

—During the past three years over thirty thousand persons visited the Davis Perfection Bakeries and registered their approval of the high standard of Perfection Products.

—The keynote of the Davis Perfection Bakeries success is based upon two all important factors—"QUALITY and SERVICE," and upon these factors the great Perfection institution has been founded, and upon them the Davis Perfection Bakeries will continue to PROGRESS.
